COMMITTEES
OF THE FACULTY

Academic Standards Committee: formulates and recommends policy concerning academic standing, grading, attendance, honors programs, requirements for graduation, and separation from the College for academic reasons; and acts as a board of review in all cases concerned with academic standing.
Prof. Richard Wall, Chairman; Prof. Charles Schwartz, Prof. Joseph Schneider, Brother Austin Gill, Prof. Fouad Abdel-Tawab, Prof. John McCabe.

Athletic Policy Committee: formulates and recommends policies for the control of intercollegiate and intramural athletics in accordance with the aims and objectives of the College; advises the President on the appointment of coaches and moderators of intercollegiate sports; and approves schedules, athletic awards, and other matters pertaining to athletics.
Prof. James Corrigan, Chairman; Prof. Daniel Lynch, Br. Roger Nagle, Prof. Stephen Schofield, Dean John Clifford, Prof. Thomas Quigley.

Curriculum Committee: makes a continuing study of the nature and extent of the courses offered; makes such revisions in the curriculum as are consistent with the aims and objectives of the College, and recommends the establishment of new curriculums.
Br. De Porres Raspatha, Chairman; Prof. Andres, Sr. Mary Virginia Cotter, Prof. Stanley Willing, Prof. Edna O’Hern, Prof. Arthur Hughes, Prof. Charles Schwartz, Prof. Francis Greene, Prof. Richard Wall, Dean James Flynn, Br. Robert Schaefer.

Faculty Interests Committee: recommends policies for improving faculty. They shall include policies for orientation, salaries, appointments, promotions, rank, tenure, professional growth, and leaves of absences.
Prof. Joseph Ford, Chairman; Prof. Donald Kennelly, Prof. Francis Greene, Prof. Stanley Willing, Prof. Nicholas Fiorenza, Prof. Robert Guarcello.

Library Committee: formulates policies and procedures relating to the library; seeks means of enriching the library’s holdings in books, periodicals, and audio-visual aids; and promotes extensive use of the library for study and research on the part of both students and faculty.
Prof. Julius Shain, Chairman; Prof. George Bush, Prof. John Sexton, Br. Vincent Healy, Mrs. Phyllis Juszczyk, Prof. Ernest Petrucelli, Mr. Harry Heuschkel.
Nominating Committee: formulates and recommends procedures for the nomination and election to elective positions on other standing committees; to propose candidates and to conduct elections.

Professional Standards Committee: formulates and recommends a statement of professional standards, conducts hearings for faculty and professional staff members seeking redress of grievances and recommends appropriate action; and investigates charges against members of the faculty and professional staff and recommends appropriate action.
Prof. Arthur Hughes, Chairman; Prof. James Flynn, Prof. Joseph Carpino, Prof. Jorge Andres, Prof. Nino Langiulli, Prof. Frank Caricato.

Promotion and Tenure: formulates and recommends policies and procedures, evaluates and recommends faculty members for promotion and tenure.
Prof. Michael Casey, Chairman; Prof. John Burke, Prof. Joseph Carpino, Br. Henry Cuddy, Prof. Alexander Doska, Prof. Nicholas Fiorenza, Prof. Charles Savage.

Research Committee: formulates and recommends policies concerning faculty research.

Scholarships and Grants-in-Aid Committee: recommends policies concerning scholarships and grants-in-aid; passes upon all applications for scholarships and grants-in-aid; makes awards in accordance with established policies; and makes a semi-annual examination of the records of the holders of scholarships and grants-in-aid and recommends continuance of such aid.
Mrs. Rita Bodie, Chairman; Prof. James O'Connell, Prof. Michael Casey, Prof. Frank Caricatao, Br. George Larkin.

Statutes Committee: makes a constant review of the statutes; and recommends changes in the Statutes which it deems advisable, submitting such recommended changes to the faculty assembly for approval before transmitting them to the President.
Prof. Robert Fox, Chairman; Br. Urban Gonnoud, Prof. John Tremmel, Prof. Nino Langiulli, Prof. James Flynn, Prof. Daniel Walsh.

Student Activities Committee: supervises the policies determined by the Student Government; establishes policies for the regulation and improvement of the clubs and fraternities of the College; and gives final approval to the distribution of awards other than academic and athletic.
Dean John Clifford, Chairman; Prof. James O'Connell, Prof. Donald Kennelly, Br. Austin Gill; Mr. David Ebner.

Advisory Committee on Student Behavior: recommends policies concerning the conduct of the student body; and acts as a board of review in disciplinary cases referred to it by the Dean of Student Affairs.
The Alumni Association, founded in 1887, exists to advance the principles and purposes of St. Francis College and to benefit the present and former students.

The Association conducts an Advisory Council to assist in career programs for students. In addition, the annual Alumni Fund renders financial aid to the scholarship and building programs of the College. It sponsors a number of social, educational, and religious affairs which serve to stimulate and maintain interest among its members and to renew old acquaintances of graduates and former students.

All former students of St. Francis College are members upon graduation of their class.

GENERAL INFORMATION

HISTORY AND GOVERNMENT OF THE COLLEGE

In the early part of 1858, the Right Reverend John Loughlin, first Bishop of Brooklyn, invited the Irish Congregation of the Franciscan Brothers to undertake the education of boys in his Diocese. On September 16, 1858, the Brothers purchased a building at 300 Baltic Street, and in the fall of 1859 opened the first classes of St. Francis Academy, in which the college had its origin. In 1868 additional property adjoining St. Francis Academy was purchased and a wing added to the original foundation containing additional class rooms, a chapel, and accommodations for boarding students. On June 2, 1868, the original foundation under the title of The St. Francis Monastery of the City of Brooklyn was incorporated.

On May 8, 1884, the Trustees of The St. Francis Monastery were empowered "to establish a literary college in the City of Brooklyn under the title of St. Francis College, and appoint as trustees of said college twelve persons of full age, citizens of the United States, and of the State of New York, whom it desires to manage and direct the said college, and their successors in office shall have power to make such by-laws as they shall deem proper for the management of said college, and to prescribe the course of study and discipline to be pursued and observed by the students attending the same, and under the title of the trustees of St. Francis College shall have the same power to confer diplomas, literary honors and degrees as is possessed by the universities and colleges of the State." The College thus became a function of The St. Francis Monastery.

The Bachelor of Arts degree in course was conferred for the first time in June, 1885. In 1891, the Board of Regents approved the Bachelor of Science curriculum, and the Bachelor of Science degree was conferred for the first time in June, 1892. The Bachelor of Business Administration degree was conferred for the first time in June, 1956.

In 1912, the College discontinued accepting boarding students to meet the needs of expansion. The living quarters of the students were remodeled to include additional science laboratories, a library, and lecture rooms. The need for more accommodating facilities and a modern building became urgent, and in 1923 the Brothers appealed to the people of Brooklyn to meet the demand. The College building formerly at 35 Butler Street (erected in 1926) was the result of this appeal. The College became a separate legal corporate entity under Charter issued by the Regents of the University of the State of New York on April 10, 1957. In 1960, several buildings were purchased on Remsen Street in the new Brooklyn Civic Center. In the Fall of 1968, two additional buildings were opened. One building increased the student union facilities, faculty of-
ices, and faculty residence facilities. The other building houses the science facilities and additional classrooms. A new health and physical education building was opened in 1971.

Traditionally an all-male college, St. Francis became a co-educational institution in 1969.

LOCATION
St. Francis College is within two blocks of the Borough Hall station of all subways and is easily accessible from all parts of the metropolitan area. The campus is located on Remsen and Joralemon Streets in Brooklyn Heights—a national historic landmark district.

GENERAL OBJECTIVES
Since every man of whatever race, condition and age is endowed with the dignity of a person, he has an inalienable right to an education corresponding to his proper destiny and suited to his native talents, his sex, his cultural background, and his ancestral heritage. At the same time this education should pave the way to brotherly association with other peoples, so that genuine unity and peace on earth may be promoted. For a true education aims at the formation of the human person with respect to his ultimate goal and simultaneously with respect to the good of those societies of which as a man he is a member, and in whose responsibilities, as an adult, he will share.

Moreover, as a result of its history, location, and sponsorship, St. Francis College is concerned with the liberal education of students from the metropolitan area. The College regards as its primary function the systematic introduction of qualified students to the larger world of the mind. To provide a setting for such larger awareness the College offers pre-professional and pre-graduate training in the arts, the sciences and business.

The purposes for which the corporation is formed are to establish and maintain an institution of higher learning at the college level and to conduct courses of instruction in the liberal arts and sciences leading to the degrees of bachelor of arts (B.A.) and bachelor of science (B.S.), with power in the corporation to confer said degrees in course and, the honorary degrees of doctor of laws (L.L.D.), doctor of letters (Litt.D.), doctor of humane letters (L.H.D.), and doctor of commercial science (D.C.S.), in conformity with the rule of the Regents of the University and the regulations of the Commissioner of Education for the registration of institutions of higher education.

MEMBERSHIP AND AFFILIATIONS
St. Francis College is chartered by the Legislature of the State of New York; is accredited by the Regents of the University of the State of New York and the Middle States Association of Colleges and Secondary Schools; is a member of the National Catholic Education Association, the Conference of the Catholic Colleges of New York State, the Association of the Colleges and Universities of the State of New York, the Association of American Colleges, the Council of Higher Educational Institutions in New York City, the Franciscan Educational Conference, the Commission on Christian Higher Education, the National Commission on Accrediting, and the American Association of Independent College and University Presidents.

LIBRARY
Eighty-five thousand volumes comprise the working nucleus of the McGarry library. There are substantial increases each year through a large budget appropriation and the contributions of the Alumni and friends of the College. More
than six hundred periodicals are received currently. Also accessible are stacks of bound and unbound periodicals and pamphlets together with various Government publications. The library is richly supplemented by the facilities of the libraries of the metropolitan area.

LABORATORIES
The new science building offers expanded opportunity for laboratory work in the physical sciences. In addition to the eleven physical science laboratories designed for the student's course work, there are numerous specialized laboratories that offer students and faculty the opportunity for research in areas both within and beyond those normally required for course work.

SPECIAL PROGRAMS
The Division of Continuing Education has been founded for the purpose of enabling every segment of the community to share in the Saint Francis experience. Open to men and women, this multifaceted division of the college provides opportunities for human growth and enrichment through a wide spectrum of courses and programs. Within this Division, students may complete courses leading ultimately to the baccalaureate degree, or, if they so choose, to the two-year or associate degree. In addition, certificates of completion are offered in the areas of computer science, educational technology, and a host of pre-professional, in-service and vocational areas.

Special Studies Program—This program permits a mature person who already possesses business, professional or technological competence, supported by acceptable academic experience, to fulfill a requirement for the acquisition of a bachelor's degree.

To qualify for this program, the applicant must be at least 26 years of age and must have completed at least two years of college-level work that can be recognized as equivalent to some 60 credits but is not related to the course requirements in any one of the programs offered by the College, or who can demonstrate conclusively that his career and/or professional goals have substantially changed.

Federal Intern Program—in cooperation with the Board of Higher Education of the City of New York, St. Francis College is a participating institution in the selection and supervision of students interested in the public service as a potential career. Opportunities are given to juniors to apply for the internship, which is full-time during the summer and part-time during the academic year. Interns are granted credit toward their baccalaureate degrees and receive $400 for the eight weeks of the summer program and a stipend, depending upon need, for their senior year. For complete information, juniors should contact the Director of Placement.

Accounting Internship programs are available to selected students. They are designed to provide guided practical experience in both industrial and public accounting.

Computer Program—St. Francis College has acquired the new IBM 1130 computer facility. Although primarily intended for mathematical and scientific uses, the IBM 1130 lends itself to many other applications. Students who have had the courses in electronic data processing and students engaged in directed research in science, mathematics, or business will have hands-on operation of the facility to test their programs and to perform the mathematical, scientific, and business applications they desire.
Junior Year Abroad—At the end of the sophomore year, qualified students may elect to take advantage of a year of foreign study and apply this work toward the degree requirements of St. Francis College. No special course of study is provided by the College. The student may select a course and place of study from among the many programs available through the various international education agencies, such as the Institute of European Studies. The International Educational Exchange Service, The Inter-American Studies Program (sponsored by the United States Government) or programs conducted by other recognized educational institutions. Students entering this program should seek the advice of the Faculty Advisor for Foreign Studies and have the program approved by the Academic Dean.

The Institute of Religious Studies for Teachers of Religion awards a certificate in recognition of the successful completion of a minimum of twenty-one credits in Religious Studies. Students who are teaching religion or are interested in teaching religion are eligible to participate. It is believed that such a program will enable teachers to be aware of the constant development in the field of religious education particularly as it affects them in their own catechetical experiences. The implications of the documents of Vatican II are thoroughly explored. Insights into contemporary Theology are used to provide a base for catechetical relevance.

Veterans Administration Companionship Program—The St. Francis College Psychology Department, in affiliation with the Veterans Administration Hospital in Brooklyn, has developed this program for qualified seniors in psychology who are interested in supervised field experience in a clinical setting. Students involved in this program will receive college credit while working as therapeutic companions to selected patients in the V.A. Hospital. In addition, they will attend clinical staff conferences and lectures in psychology and psychiatry scheduled at this hospital.

Life Experience Credit—This is an experimental program designed to assist the serious mature adult of 35 years or older who was unable to complete or start a college program upon completion of secondary school. Credit earned at post-secondary school institutions may be used in this program. Students will be directed to take the College Level Exam Program and New York State College Proficiency exams when applicable. Credit may also be granted for life and work experience upon the judgment of the Life Experience Program Committee. A minimum of 30 credits must be completed on campus in this program. Information and applications may be obtained from the Academic Dean.
ADMISSION OF STUDENTS

ADMISSION TO THE FRESHMAN CLASS

It is the policy of St. Francis College to admit as matriculated students only those applicants who present evidence that they can successfully pursue courses leading to a degree. No qualified applicant will be refused admission because of race, creed, or color.

A student who desires admission to the freshman class should apply to the Director of Admissions for an official application blank, and return it, completed, to the Director. The applicant should request the secondary school principal or representative to forward a record of high school grades to the Director of Admissions on an approved transcript form. Application for admission should be made as soon as possible in the senior year of high school or at the end of junior year on the Early Acceptance plan.

For admission, an applicant must: 1) be a graduate of an approved secondary school; 2) present evidence of satisfactory standing in the high school class and successful completion of required courses; 3) furnish a recommendation from the secondary school principal, or representative, as to character, personality and promise; 4) report for an interview with the Director of Admissions, or his representative, when required; 5) furnish S.A.T. scores; 6) present sixteen acceptable units as follows:

English, four years 4 units
The remaining twelve units are to include a three-year sequence and a two-year sequence and are to be made up of the following academic programs of study: Foreign Language, Mathematics, Science, Social Studies, and Business. Applicants for the Bachelor of Science program must have completed Eleventh Year Mathematics or its equivalent. 12 units

16 units

ENTRANCE EXAMINATIONS

Applicants for the day session are required to take the Scholastic Aptitude Test (morning section) of the College Entrance Examination Board and have the results sent to St. Francis College. A Bulletin of Information containing procedures for filing applications, a list of examination centers, and test dates may be obtained by writing to: College Entrance Examination Board, P.O. Box 592, Princeton, New Jersey 08540. Applicants for the evening session who because of employment or other circumstances have not taken the Scholastic Aptitude Test may be required to take a special entrance examination at the College.

The College is more interested in the applicant's potential to succeed in col-
lege than in any prescribed pattern of entrance units. Where the preparation differs from the state requirements, the record will be studied carefully by the Committee on Admissions for evidence of unusual aptitude, especially in those studies which are prerequisite for the curriculum the applicant wishes to pursue.

FOREIGN STUDENTS
Foreign students who seek admission should file their application, transcript of high school, proof of high school graduation, (G.E.D. or five passes on the G.C.E.) and present scores of the Test of English as a foreign language (T.O.E.F.L.), with the Admissions Office well in advance of their anticipated entrance date.

ADMISSION WITH ADVANCED STANDING
A student who has attended another college or university must present an official transcript of credits showing courses and grades, a marked catalogue of the institution or institutions attended, indicating the courses for which the applicant seeks credit, and a statement from an administrative officer that applicant has been honorably dismissed. The student must fill out the required application and have the secondary school record forwarded. Credit will be allowed only for courses appropriate to the curriculum chosen at St. Francis College.

The decision to admit to advanced standing and the determination of the amount and quality of transfer credit to be allowed rests with the Director of Admissions. Credit will be allowed for any transfer course equivalent to or higher than the St. Francis grade of C.

ADVANCED PLACEMENT
A student may qualify for advanced placement by presenting evidence of having completed a collegiate-level course in high school in the form of an acceptable score in the Advanced Placement Test of the College Entrance Examination Board. All communication regarding advanced placement should be addressed to the Director of Admissions. Information regarding the Advanced Placement Tests may be obtained from Educational Testing Service, Box 592, Princeton, New Jersey 08540.

CREDIT BY EXAMINATION
Advanced standing with credit is allowed upon evidence of successful completion, with a satisfactory grade, of the Advanced Placement Examination; the College Level Examination Program General Examination or Subject Examination of the College Entrance Examination Board, Princeton, N.J. Credit is also granted for a satisfactory grade in Proficiency Examinations conducted by the University of the State of New York, through the Division of Testing, Albany, N.Y.

Information may be obtained by writing to the respective agencies. Test results should be forwarded to the Admissions Office well in advance of the proposed term the student wishes to begin classes and have credits evaluated.

CLASSIFICATION OF STUDENTS
A Matriculated or Regular Student is one who has fulfilled the matriculation requirements and is pursuing a degree program.

A Transfer Student is one who has withdrawn from a college or university and has been admitted to St. Francis College to pursue courses leading to a degree.
A Transient Student is one regularly enrolled in another college or university whose work at St. Francis College is to be transferred to the institution in which he is regularly enrolled.

A Special Student is a student of mature age who does not wish to complete a regular course of study. Such a student may be admitted with the consent of the Director of Admissions. The student must, however, submit credentials covering all preparatory work and, if admitted, may pursue only such studies as the student's qualifications permit.

Regular college students are classified on the basis of achievement as follows:

LOWER DIVISION
Freshmen—those who have fewer than 28 credit hours.
Sophomores—those who have earned 28 credit hours.

UPPER DIVISION:
Juniors—those who have earned 60 credit hours.
Seniors—those who have earned 90 credit hours.

The work in the lower division comprises the basic studies intended to lay the foundation for the more advanced work of the upper division. The work of the upper division involves the comprehensive grasp of a field of study which will contribute to the special interest of the student, together with a knowledge of other fields, thus giving purpose and unity to the whole college program.

DAY SESSION STUDENTS
Day Session Students are all students matriculating toward a Baccalaureate Degree in the Day Session.

CONTINUING EDUCATION STUDENTS
Continuing Education Students are:
1. All students matriculating toward a Baccalaureate Degree in the Evening Session.
2. All students in Associate Degree programs.
3. All students admitted as Special or Non-matriculating students.
FEES

The Trustees of St. Francis College exert every effort to keep the tuition costs as low as possible consistent with sound education policy. The Trustees reserve the right to make changes in tuition and fees when necessary.

REGULAR FEES
Application Fee $ 15.00
Readmit Application Fee 15.00
Pre Registration Fee 50.00
This fee is not refundable. It will, however, be credited towards tuition.

Matriculation Fee 10.00
This fee is payable only once and is not refundable.

Tuition Per Credit Hour 66.00
Service Fee for Students Taking 12 or More Credits 32.50
Service Fee for Students Taking Fewer Than 12 Credits 10.00
This fee includes registration, library and student services.

Registration Fee for Students Taking Fewer Than 12 Credits 10.00

Service Fee For Summer Session 10.00

Student Activities Fee 17.50
This fee is applicable to full time matriculated students taking 50% or more courses before 6 p.m.

Diploma Fee (Associate Degree) 15.00

Laboratory Fee per lab. hr. 10.00

SPECIAL FEES
Late Registration Fee 10.00
Graduation Fee 25.00
Change of Program Fee 5.00
Re-evaluation of Transfer Credit 5.00

Special Examination Fee 5.00
Transcript Fee
For all students and each time. 2.00
For special handling. 5.00

Maintenance of Matriculation Fee 10.00

Life Experience Evaluation Fee 500.00

PAYMENT PROCEDURE
All charges for tuition and fees are payable at registration.
All payments must be by check or money order made payable to St. Francis College. Cash will not be accepted.
As of Sept. 1974 the deferred payment plan will be available to only:

Juniors
Seniors

This plan is subject to elimination and/or change without notice—it is being phased out.

The deferred payment plan is not available to any other students.

The plan is as follows:
1. A deposit of 50% of tuition plus all fees at registration.
2. The remaining amount of tuition must be paid in equal installments:

Fall Payments Due
October 31
November 29

Spring Payments Due
March 31
April 30

The College has a working agreement with certain financial institutions. Those who wish information regarding this matter may obtain same from the Director of Financial Aid.

3. A student who fails to make payments on schedule will be penalized $15.00 for each installment not paid on or before the due date. Students who do not adhere to the payment procedure may lose the privilege of the deferred payment plan.

A transcript of a student’s records will not be issued by the Registrar’s Office until a student’s financial obligations to the College have been paid.

A student is liable for all charges for courses for which the student registers. If there is a change in the original registration during the first week of classes, such a change must be approved by the Registrar and reported to the Controller. The payment of additional tuition incurred by a student as a result of such a change in program is due on the day of the change.

No student will be considered for a degree until all financial obligations to the College have been satisfied.

REFUNDS
1. When a student finds it necessary to withdraw from the College, the student will file notice with the Registrar and the Controller on an official form furnished by the Registrar.
2. The amount to be refunded will be determined from the date the official withdrawal form has been completed and filed with the Registrar.

3. A proportionate refund of tuition only is made according to the following schedule:

| Withdrawal during the first 2 weeks of term | 80% |
| Withdrawal during 3rd week of term | 60% |
| Withdrawal during the 4th week of term | 40% |
| Withdrawal during the 5th week of term | 20% |
| Withdrawal after 5th week of term | no refund |

In no case will a refund be made to a student who is dismissed or who withdraws while under disciplinary action. No refund will be granted for a particular course discontinued by a student after the first week of classes.
FINANCIAL AID

St. Francis College is interested in granting financial assistance to students who, without such aid, would be unable to attend the College. Financial assistance consists of scholarships, grants, loans, and employment which may be offered to students singly or in various combinations. Incurring any disciplinary penalty may result in termination of financial aid. Withdrawal from the College automatically terminates the scholarship or other aid.

COMPETITIVE SCHOLARSHIPS

Need is always a factor in determining the amount of an award. Scholarship holders must maintain a cumulative index of 2.0 at the end of the freshman year, 2.5 at the end of the Sophomore year and 3.0 at the end of the Junior year.

Qualifications

1. Exceptional academic achievement evidenced by previous school record, and participation in school and community activities.
2. Exceptional academic potential. This can be evidenced by scores on the Scholastic Aptitude Test of the College Entrance Examination test, high school grades and participation in school.
3. An unqualified recommendation by the high school principal or guidance counselor.

Candidates for Scholarships Must:

1. File an application for admission to St. Francis College.
2. Take the necessary College Entrance Examination Board Tests and have the scores sent to St. Francis College.
3. Complete the “Parents Confidential Statement” of the College Scholarship Service and have a copy forwarded by them to St. Francis College. Copies of the form may be obtained from the high school guidance counselor or from the College Scholarship Service, Box 176, Princeton, New Jersey 08540.
4. File an application for Financial Aid. Applications are available on request.
5. File all required forms before February 15th for scholarships for the following academic year.

SPECIAL SCHOLARSHIPS

The Most Reverend Thomas E. Molloy Memorial Scholarship. Established by the Board of Trustees in memory of the late Bishop of Brooklyn, a distinguished alumnus of St. Francis College. This scholarship is restricted to residents of Brooklyn, Queens, Nassau and Suffolk Counties.
The Right Reverend Msgr. Joseph V. McClancy Memorial Scholarship. Established by the children of the Catholic schools in memory of their distinguished superintendent, an alumnus of St. Francis College. This scholarship is restricted to residents of Brooklyn, Queens, Nassau and Suffolk Counties.

The Right Reverend Msgr. Daniel U. Hanrahan Scholarship. This scholarship is named for a distinguished alumnus of St. Francis College, and is solely for residents of Sacred Heart Parish, Cambria Heights, Queens.

The Brother Austin Sullivan, O.S.F. Memorial Scholarship. Established by the friends of Brother Austin Sullivan, O.S.F., this scholarship is solely for a graduate of St. Francis Preparatory School.

The Brother Jerome Roese, O.S.F. Memorial Scholarship. Established in memory of a former president of St. Francis College, this scholarship is restricted to students from St. Vincent's Home, Brooklyn.

The Catholic Accountants Guild Scholarship. This scholarship is solely for accounting students in the Senior class.

GRANTS-IN-AID
A limited amount of money is available to assist needy and deserving students. These grants-in-aid are distinguished from scholarships in that they are based on extreme need. A student receiving a grant-in-aid from St. Francis College must maintain the quality point index required of his class. These grants are for one academic year only, but may be renewed upon application.

Students applying for a grant-in-aid should complete the application form and return it to: Director of Financial Aid, St. Francis College, 180 Remsen St., Brooklyn, New York 11201. A copy of the Parents Confidential Statement must be completed and sent to the College Scholarship Service, Box 176, Princeton, New Jersey 08540, with instructions to forward a copy to St. Francis College. Complete application must be submitted by April 15th of the academic year preceding that for which aid is requested. Brothers and/or Sisters in simultaneous attendance: A reduction in tuition rate is available for families with more than one dependent attending St. Francis at the same time. Forms for reduction in tuition may be obtained from the Director of Financial Aid. Financial aid awards that are made from federal or state funds are subject to continuing legislative approval of programs and appropriations.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS
The Higher Education Act of 1965 authorized the use of federal money to assist college students with exceptional financial need. These grants are available to a limited number of students. They range from $200 to $1,000 a year and can be no more than one-half of the total assistance given the student. The exact amount of the grant will depend upon the demonstrated need. They are given for one year, renewable annually. A new application and statement of finances is required for renewal.

COLLEGE WORK-STUDY
Under a grant from the Federal Department of Health, Education, and Welfare, St. Francis College is able to offer employment to students with financial need. The College and the federal government contribute funds for this program. The College work-study program provides employment in various departments of the College and also "off campus" employment with governmental and social service agencies in the metropolitan area. Interested students
should submit a Parents Confidential Statement and an application for Financial Aid.

**STUDENT LOANS**

**National Direct Student Loans.** The National Direct Education Act of 1958, as amended in 1972, provides for long-term low interest loans to college students in financial need. Both St. Francis College and the Federal Government contribute funds to the loan program. To qualify for a National Direct Student Loan, the applicant must be in good standing or be accepted for admission and demonstrate financial need. An application may be obtained by writing to the Director of Financial Aid, St. Francis College, 180 Remsen St., Brooklyn, New York 11201.

**State Loan Programs.** The New York Legislature in 1957 created the New York Higher Education Assistance Corporation to administer a program of educational loans to deserving students. Students who are residents of states other than New York should consult their guidance counselors for information regarding the loan programs in their state. Students may obtain applications from their local banks or the college—a Parents Confidential Statement is also required.

**Private Loan Programs.** In addition to the loan programs described above, a variety of privately sponsored loan and “deferred programs” are available to the St. Francis College student. These plans enable families to distribute the payment of all college expenses over the academic year and normally include life insurance coverage. Brochures describing in detail the various programs may be obtained by writing to the Director of Financial Aid, St. Francis College, 180 Remsen Street, Brooklyn, New York 11201.

**REGENTS SCHOLARSHIPS**

Under this program more than 20,000 scholarships are offered to students entering colleges in New York State. Selection is based on the Regents Scholarship College Qualification Test administered in secondary schools during the Fall of senior year. Students should be certain to take this examination. In addition special awards are available to children of deceased veterans. The amount of the award is based on need as determined by net income of the family. Provision is made should more than one student in the family be attending college. The applicant must be a resident of New York State, and the funds may be used in colleges in New York State only. Detailed information regarding this program may be obtained from the high school guidance counselor.

**The Tuition Assistance Plan.** The Tuition Assistance Plan allows students who graduated from high school after January 1, 1974 and who have not begun post-secondary study before July 1, 1974 to receive awards ranging from $100 to $1500. Undergraduate students who have received Scholar Incentive or scholarship payments prior to July 1, 1974 receive payments ranging from $100 to $600. All students who are enrolled for a minimum of 12 credits and reside in New York State for one year and whose family has a net taxable balance of $20,000 or less are eligible to apply. Write the State Education Department, Regents Examination and Scholarship Center, 99 Washington Avenue, Albany, New York 12210.
STUDENT SERVICES

Student Services at St. Francis College begin with pre-admission counseling and orientation of freshmen, and continue with vocational, educational, physical, and personal guidance, as well as student co-curricular activities, job placement, and follow-up. They are concerned with assisting the student in a successful adjustment to the College and life, spiritually, academically, socially, and emotionally.

FRESHMAN ORIENTATION

Freshman orientation is held for each incoming class at the opening of the Fall semester. Its objectives are to welcome the new student to the College; to acquaint the student with the rules and regulations of the institution, the members of the faculty, and the services offered; to offer initial advice relative to collegiate methods and problems; to familiarize the student with extra-curricular activities; to establish definite relations between the students, faculty, and administration; and to provide aptitude, achievement, and interest testing.

FACULTY ADVISORS

Faculty Advisors are appointed to assist the students in planning their courses of study and serve them in their academic life. Every student must have his courses approved by his advisor at the time of registration. Students have as advisor the chairman of the department of their major field of study. The advisors are available to students at the time of registration for each semester and by appointment at other times in their respective faculty offices.

COUNSELING AND CAREER PLANNING CENTER

The Counseling and Career Planning Center is a professional agency that provides the students with personal, career, and educational counseling. In addition, the Counseling and Career Planning Center provides the students with special services by administering such programs as graduate school planning, testing, special studies advisement, career planning, and employment counseling. It is the aim of these programs to help each student adjust to college and successfully complete his or her education.

The Counseling and Career Planning Center is located in Room 701A, and its services are available to all students.

THE CENTER FOR VETERANS AFFAIRS AND COUNSELING

The concern of the Veterans Affairs and Counseling Center is for the total educational, social and personal development of the veteran. The Veterans
Counselor assists the veteran from the time of his initial contact with the College through graduation and as an Alumnus. As a prospective student, the veteran is assisted in his choice of colleges. The different programs at St. Francis are discussed, and, if remedial help, testing or further counseling is needed, it is provided without charge. While the veteran is a student, the Center for Veterans Affairs and Counseling provides the veteran with help relative to benefits, career choice, academic advisement, personal counseling or any matters that might pertain to him/her. 

The Center, located in Room 701A, is open from 9 A.M. to 6 P.M., Monday through Wednesday; 9 A.M. to 5 P.M., Thursday; 9 A.M. to 4 P.M., Friday and by appointment. Any inquiries by veterans regarding college planning should be made to this Center (Ext. 262).

HEALTH SERVICE

The Student Health Service is equipped to provide emergency and first aid attention. Health guidance is available to promote the well-being of the students. Medical suite contains a cot and other short-term facilities. Appointments can be made with local general practitioner when necessary. Several hospitals are near the College.

MEDICAL-ACCIDENT INSURANCE PROGRAM

Full time students are covered by a medical-accident plan. 

The benefits and limitations of this plan are as follows: 

1. It pays the actual medical expense incurred within twenty-six weeks from date of an accident for injuries sustained while traveling to and from school, while in attendance at school, and while participating in school-sponsored activities.

2. Payment will be made up to $2,500 for each injury. Additionally, a flat sum of $2,500 will be paid in the event of accidental death and up to $2,500 for dismemberment.

3. The plan does not cover replacement or repair of eyeglasses or prescriptions, dental X-rays, or loss due to act of war. Dental expense is covered only to the extent of that incurred as a result of injury to sound natural teeth not to exceed an aggregate of $100 for any one accident.

It also excludes expense of medical treatment, dental care, or attention by any doctor, intern, nurse, or other person employed or retained by the school. Loss while in military or naval service is not covered. This plan is broad in scope, covering all sports except intercollegiate football.

Information or advice on claims is handled by the Health Services Office.

ACTIVITIES

The College offers an organized program of extracurricular activities broad and varied enough to meet student interests and needs. Divisional clubs have been organized to assist the students in coordinating their academic efforts and acquainting them with the most recent and vital personalities and movements in their field. Juniors and seniors should attend the meetings of the club that represents the student’s major subject.

The student activity program is supervised by the Faculty Committee on Student Activities and by the Student Government, and is administered by the Office of the Dean of student affairs.

The Student Government of St. Francis College is concerned with the organization and coordination of the student body of the College. It is concerned with the affairs of the students in their relations with the College and the sur-
ronding communities. The purpose of the Student Government is to act as a
sounding board for all student interests, while at the same time assuming the
task of providing efficient and productive leadership for the students. Elected
annually by the student body, the Student Government derives its power from
and is essentially responsible to the students. Thus, the Student Government is
an extension of the will of the majority of the students in the College. It is the
responsibility of the Student Government to act as the legitimate representative
of the student body before the various groups involved with the College
Community.

Student Group Leaders are outstanding students selected by the Student
Government to assist in the various programs of student services. During orien-
tation week they help conduct the many activities for the new students. They
meet with groups of freshmen assigned to them and conduct orientation lec-
tures. They also serve as hosts at the career conferences and as ushers at assem-
blies and religious services.

The Duns Scotus Honor Society has as its primary aim the encouragement
among students of a love and desire for excellence in scholarship and service to
all the activities of the College. The secondary aim is to honor and recognize
worthy students who, by outstanding attainment, have won the esteem of their
fellow students, members of the administration, and the faculty. A student will
be eligible to seek membership only after the completion of the sophomore
year. At commencement, each member will have the privilege of wearing a
distinctive tassel on the cap as an emblem of the student’s membership. Mem-
bership does not cease at graduation. Alumni and other distinguished persons
who have rendered outstanding service to the College may be elected as hon-
orary members.

Omicron Delta Epsilon. Eta Chapter, is a national economics honorary fra-
ternity. The St. Francis group is limited to juniors and seniors who have a
cumulative index of 3.00 and have earned twelve credits in economics with a
better than 3.00 average.

Phi Alpha Theta, Theta Nu Chapter, national history honor fraternity was es-
ablished at St. Francis College in 1961. Membership is limited to juniors and
seniors who have an index in history of 3.00 and a cumulative index of better
than 2.80. Members must have at least twelve semester hours of history.

Sigma Delta Pi, Zeta Theta Chapter, of the national Spanish fraternity was
established in 1967. Membership is limited to juniors and seniors who have an
index in Spanish of 3.00 and rank in the top 35% of their class.

Kappa Mu Epsilon, New York Theta Chapter, of the national mathematics
honor society, is a vehicle for discussions and undergraduate research in
mathematics. Membership is limited to sophomores, juniors, and seniors who
have an index in mathematics of 3.00 and a cumulative index of 2.75 or better.
Members must be mathematics or physics majors and have had at least twelve
credits in mathematics.

Alpha Kappa Psi, Zeta Iota Chapter, Professional business fraternity, has been
at St. Francis since May, 1964. The fraternity’s aims are to further the welfare of
its members; to foster research in all facets of business; to appreciate and de-
mand higher ideals from the business world; and to promote and advance in
colleges and universities courses leading to degrees in business administration.
In accordance with these goals the fraternity annually conducts a professional
program intended to educate and broaden the interests of its members.
The Science Club has been organized to provide those students who have a special interest in chemistry, biology, and physics with the opportunity of pursuing their major work outside the classroom and laboratory.

The International Relations Club fosters an interest in the political, economic, and cultural history of man. Its programs relate especially to contemporary international affairs.

The Philosophical Society is a forum for informal discussion and shared inquiry on philosophical issues and includes a program of guest lectures.

The Business Club aims to arouse the interests of the student body in current business affairs and practices with guest speakers and informal discussions by the members.

The Troupers is the dramatic organization of the College. The members act in, produce, and direct several full-length and one act plays each year. Regular meetings are held, at which guests from the professional theater demonstrate techniques. Its aims are not only cultural and literary, but also practical since it offers experience in the craft of the theater.

The St. Thomas More Pre-Law Society seeks to inform the potential law student of the many facets of the student's proposed profession. During the year representatives of law schools and other professional people address the members. Information about the requirements for taking the Law School Admission Test are discussed by the membership.

The Sociology Club is organized to give students of sociology an opportunity to deepen their understanding of existing social problems. To achieve this goal, specialists in the field are invited as speakers, and field visits are arranged.

Fraternities: Five fraternities offer social advantages that appeal to many students. Pi Alpha, founded in 1906, is a local student organization; Phi Rho Pi, Beta Chapter, was founded in 1922; Omega Delta Chi, another local group, was organized in 1961; Alpha Phi Delta, Beta Sigma Chapter, was established on the campus in 1961; and Sigma Gamma Pi was established in 1967.

Phi Kappa Chi, a sorority, was founded in 1970. The basic aims of the Sorority are the promotion of friendship and social interaction, to diffuse liberal culture and to advance equality in college affairs. The sorority hopes to form a body which will wield a beneficial influence on its members and on college life.

The Knights Of Columbus, St. Francis of Assisi Council 6041, is dedicated to the principles of charity, unity, fraternity, and patriotism, and fosters these principles through its various activities.

The Voice is the College newspaper, edited and published by the students.

The Franciscan is published annually by the members of the senior class to record the history of the class and the important College activities of the year.

The Cord is a student handbook that contains the traditions, rules, and regulations of the College. It contains valuable and detailed information for all students.

The Professor Delaney Debating Society seeks the development of interest among students in intercollegiate and intramural debating.

The Association of Evening Students was formed to promote the interest of the evening students in the extracurricular activities of the College. The Association appoints a representative to the Student Council.
The Glee Club, in addition to performing at student assemblies, participates in college competitions and takes part in joint concerts with local colleges.

The St. Francis College Film Society has been formed so that the classics of the cinema can be brought within easy reach of its members. Anyone, college age or older, can become a member by paying the twenty-five cents dues and obtaining a membership card, which will allow him to buy tickets. The card must be presented each time a ticket is purchased. New members may obtain cards wherever tickets are being sold.

The Mathematics Club meets weekly in separate sections for the lower and upper divisions. It covers graduate record problems, opportunities in graduate schools and employment, the use of mathematical instruments, and topics not usually covered in the regular curriculum.

The Psychology Club stimulates interest in psychology, especially in those areas that are not specifically covered in course work. This goal is achieved by means of guest lecturers and field trips.

The Committee on Social Action was formed at St. Francis College in 1967. The aim of this voluntary student group is to work among the underprivileged in either recreational or tutorial programs.

The Economics Society is a co-curricular activity designed to stimulate the interest of economics students with frequent meetings and field trips in the metropolitan area.

The Chess Club operates both intermurally, and intramurally.

The Latin American Society provides a friendly, informal atmosphere in which to explore and develop the common interests of the students' Latin American Studies. Its activities include weekly meetings, speakers, slides, films, excursions and conferences.

Young Christian Students (YCS) is concerned with educating its members to some of the requirements of social and political life. Members have engaged in tutoring children in some of the less economically privileged sections of the Brooklyn community.

St. Boniface German Club This club is intended as a supplement to the German courses offered at St. Francis College. Students taking German as their foreign language are encouraged to participate in the meetings, which include films, discussions, occasional lectures on German culture and related topics, and other activities that may be announced. In the past the club represented our College in the September Steuben Parade.

The Afro-American Club was founded in the Spring of 1968, and seeks to satisfy the needs of the minority student. It aims to foster a better understanding of minorities, both within and without the college community.

The Foreign Students Association. The Foreign Students Association is an organization comprised of students of various countries attending St. Francis College. It promotes the academic and social interest of its members by seeking to satisfy the needs of all foreign students. It also hopes to foster greater understanding among its members and other students at St. Francis College.

The Student Educational Association is the pre-professional association for college and university students preparing to teach. It is an integral part of the National Education Association (N.E.A.)—a voluntary, independent, and non-governmental professional association.
The Ice Hockey Club was formed in 1968 and helped organize a league. This club is student-sponsored, student-supported and in its first three years won three consecutive championships.

The Spanish Club. Reactivated in 1968, the Spanish Club has campaigned to foster an interest in Spanish Culture at Saint Francis by means of lectures, movies and its most noted function—The Spanish Fiesta.

Each year the club awards the Honorary Roberto Clemente Medal to that graduating member who has exhibited outstanding scholastic achievement in Spanish and has actively participated in the attainment of club goals.

THE ATHLETIC ASSOCIATION

Under the supervision of the Athletic Policy Committee, the Association promotes the athletic interests of the College and regulates all matters of management pertaining to collegiate and intercollegiate athletics. Intercollegiate participation is available in the following sports: baseball, basketball, bowling, track (relay and cross-country), golf, tennis, swimming, waterpolo, and riflery. Intramural activities are open to all students in badminton, basketball, boxball, foul shooting, golf, handball, horseshoe pitching, riflery, softball, swimming, tennis, track, volleyball, and bowling. The College provides a program of intercollegiate and intramural athletics in which the student may participate according to ability.
ACADEMIC REGULATIONS

CREDIT HOURS
Units of achievement are recorded as credit hours. Each credit hour represents fifteen hours of regular class participation in a lecture or thirty or more hours in a laboratory. For example, a science course might consist of two one-hour lectures and two two-hour laboratory periods each week, making a total of four credit hours for the course for one semester.

REGISTRATION PROCEDURE
Each student will be required to have a conference with his or her advisor during the early registration period in order to have the selection of courses for the following semester approved. Final registration takes place on the days indicated in the academic calendar and is contingent on a record of satisfactory marks for the previous semester. Any changes in the original program outlined at the time of early registration must be approved by the advisor at the time of final registration. Enrollment after the days designated in the catalogue will be permitted only with the consent of the Academic Dean and only for a satisfactory reason. Late registrants will be charged a fee of $10.00 and will be held responsible for all absences due to late registration.

Registration will not be complete until the payments required by the Controller's Office have been made. No student may report for any course for which he has not registered. The student must attend the section selected unless permission has been obtained from the Registrar to change from one section to another. A student may not register for a course unless all prerequisites have been satisfied. Permission will not be given to a student to audit courses except in special cases allowed by the Academic Dean. In such cases, the student will pay the regular fees.

CHANGE OF PROGRAM
A student may change the program after the close of the registration period only with the written authorization of each instructor involved and the approval of the Academic Dean. A payment of $5.00 will be required for any change of program at the time the change is made.

Students who wish to change degree programs must obtain the permission of the Academic Dean. Evening Students may arrange for an evening appointment by calling the Academic Dean's Office from 9:30 a.m. to 4:30 p.m. any school day.

Students who wish to change from Day Session to Evening Session or from Evening Session to Day Session must seek this permission by writing to the
Francis. Where such permission is granted, the combined programs may not exceed eighteen credit hours per semester. Permission may be granted to attend the summer session at another institution provided the courses sought are required and are not being offered at St. Francis. In no case may a student take a total of more than six credits during a six-week summer session.

Permission may be granted to take courses at another institution only when:
1. The student has not entered upon the senior year.
2. The student has an index of 2.00.
3. Written approval for the required courses has been granted by the Chairman of the department concerned and the Academic Dean.
4. Official permission of the Academic Dean has been secured before the end of the preceding semester.

Credit will be transferred only for courses completed with a grade of C or better.
REQUIREMENTS FOR DEGREES

The College offers the B.A. degree with majors in Economics, English, French, History, Latin-American Studies, Philosophy, Political Science, Psychology, Religious Studies, Social Studies, Sociology, Spanish, Teacher Training for Secondary School certification in English, French, Social Studies, and Spanish, Teacher Training for Elementary School certification, and Urban Studies; and the B.S. Degree with majors in Accounting, Biology, Business Management, Chemistry, Health Science, Mathematics, Physical Education, and Physics, as well as Teacher Training for Secondary School certification in Biology, Accounting and Business Practice, Chemistry and Mathematics and Teacher Training for Elementary School certification in Mathematics.

The College offers the Associate Arts Degree in Liberal Arts and Pre-Teaching; and the Associate Applied Science Degree in Business Administration, Computer Science and Criminal Justice.

A candidate for a degree must complete the required courses as outlined in the student's respective curriculum and have a cumulative index of at least 2.00.

The Health and Physical Education requirement of two credits can be met by taking HS 202 and any other course selected from among PE 101, 102, or 201.

Transfer students with fewer than thirty transfer credits must meet the two credit requirement. Transfer students with more than thirty transfer credits, and honorably discharged veterans who have served more than six months active service in the Armed Forces of the United States, must complete HS 202.

Evening students are exempt from the Health and Physical Education requirement.

Students who participate in intercollegiate athletics must follow the regular registration procedures. They are excused from attendance in the PE 101-102 classes during the season of the sport in which they participate. The season of a sport starts at the first official practice and ends after the last official contest. Athletes must then report back to their regular Physical Education classes.

Honorably discharged veterans having completed eighteen months or more of active service in the Armed Forces of the United States may be granted up to ten credits of the elective requirements toward a degree. These credits may never substitute for required courses or for courses in the student's major field. Application for these credits must be made to the Academic Dean.

Each candidate for a baccalaureate degree must complete a major field of study and obtain a passing grade on a comprehensive examination or project in the student's major field. Education 404 (Observation and Supervised Practice Teaching) satisfies the comprehensive requirement for students in the Teacher Training Program.
Graduation honors are inscribed on diplomas and recorded in the published list of graduates as follows:
The degree of SUMMA CUM LAUDE will be conferred upon a candidate who has achieved a quality point index of 3.80.
The degree of MAGNA CUM LAUDE will be conferred upon a candidate who has achieved a quality point index of 3.50.
The degree of CUM LAUDE will be conferred upon a candidate who has achieved a quality point index of 3.20.
A student must complete 90 credits at St. Francis for these honors.

- Students are advised to choose among the following: Eng. 120; 121; 122 (formerly 407A).
MAJOR FIELD OF CONCENTRATION
All students must designate a major field from among those offered by the college. Designation of Major forms must be filled out in duplicate and filed in the Registrar's Office. Students are responsible to their major department for advice on planning their registration programs.

COMPREHENSIVE EXAMINATION OR PROJECT
During the senior year every candidate for a baccalaureate degree shall take a comprehensive examination and/or complete a research project.
Specific information about the comprehensive may be obtained from the chairman of the department concerned.
The grades earned in the comprehensive examination or project shall be signified as follows.

H honors 90 or better
P pass 70-89

Students who merit a grade of "H" in the comprehensive may be exempt from final examinations in all courses in their major field at the end of the senior year at the discretion of the department.

SENIOR REQUIREMENT
The final thirty-two credits for the degree must be earned at St. Francis College.

APPLICATIONS FOR A DEGREE
Early in the last year of college each candidate will file with the Registrar a formal application for a degree. It is the responsibility of every degree candidate to observe all requirements and regulations as well as all deadlines for the paying of fees, filing of applications, submitting forms, and the like.
The College is divided into the following departments:
- Accounting and Business Law
- Biology
- Business Management
- Chemistry
- Economics
- Education
- Electronic Data Processing
- English
- Foreign Language
- Health Science
- History and Political Science
- Mathematics and Physics
- Philosophy
- Physical Education
- Psychology
- Religious Studies
- Sociology
- Speech and Fine Arts

**Economics Department**

Professor Michael Casey, Department Chairman

This department offers a unique course of study leading to a major in Economics. Its curriculum is designed to provide for a flexibility in course offerings which is necessary for a continued relevance in a changing world.

The student of Economics prepares for careers in business, education, or government. While an Economics major enjoys all the advantages of a liberal arts education he further enjoys the additional flexibility of some specialization in business subjects such as accounting, computer science, and business management. Election of courses in the business area qualifies the student for graduate study in business. By election of courses in foreign languages and/or mathematics, the Economics major is also qualified to enter graduate programs in Economics.

Education Department
Brother Cosmas Herlihy, O.S.F., Department Chairman

The Department of Education offers courses required by New York State and the Board of Education of the City of New York. Students are prepared to meet the New York State Provisional Certification requirements in Elementary Education in English, Social Studies, Mathematics, Spanish and Secondary Education in English, French, Spanish, Social Studies, Biology, Chemistry, Mathematics, Physical Education, Health Education, and Accounting and Business Practice.

Students interested in teaching should consult with the Head of the Department of Education during the freshman year in order to discuss professional and subject requirements. All programs for students in Teacher Education must be approved by the Head of the Education Department. Students must take a minimum of eighteen semester hours in Education courses, as indicated in each particular curriculum.

Certification to teach in elementary and secondary schools of New York State is granted by the State to those students who complete an approved program in Teacher Education. In granting this certification, the State requires a balance of courses in three areas of study: (1) general-liberal education; (2) professional studies in education; (3) academic or subject areas the candidate expects to teach. Students completing one of the Teacher Training Curriculums will receive New York State Provisional Certification and will be eligible to complete the fifth year requirement of permanent certification at an institution of the student’s choice. Students are eligible for license examinations in the New York City Board of Education. This license is recognized by the New York State Department of Education as sufficient for eligibility to teach in all school districts of New York State. Students entering teaching upon graduation may complete the thirty semester hours of graduate work (fifth year) on a part-time basis to satisfy the requirements for permanent certification in New York State.

Students entering the teacher training program may not be on probation and must maintain a 2.00 overall index and a 2.50 index in their major subject field. Students are urged to observe the curriculum requirements in their chosen field, and are held responsible for choice and successful completion of the curriculums as outlined for them. Their official advisor is the chairman of the Education Department. Supplemental material may be obtained from the Education Department.

Speech And Fine Arts Department
Professor Edward Setrakian, Department Chairman

This department offers courses in Speech, Theatre and Fine Arts.

Preparation for Professional Study
Pre-Medical, Pre-Dental, and Pre-Optometry

The requirement for admission to the study of dentistry, medicine, or optometry is the satisfactory completion of two years of study toward a Liberal Arts degree, including approved courses in English, Organic Chemistry, Physics, and Biology or Zoology.

Students should carefully note that the above are only minimal and that professional schools will not consider applicants who have only minimal preparation. The trend for admission to these schools is toward the completion of a four-year undergraduate course. Students who contemplate studying medicine, dentistry, or optometry are strongly urged to complete the four-year college course and obtain the degree.

Any student planning to enter a professional college should consult the catalogue of the college of the student’s choice during the freshman year.

A junior or senior who intends to apply to a professional school must submit to a personal interview at a meeting of the Committee on Recommendations to Professional Schools during the month of October or the month of February. Exact dates of such meetings will be posted. Recommendations may be obtained at these times only. Students should have taken the Medical Aptitude Examination several months prior to the time of application for recommendation.

Pre-Law

Law schools do not prescribe a definite pre-law curriculum for the prospective student to follow. Therefore the student will have to make his own selection of courses in undergraduate school which will assist him in achieving his goal. Select a major in a field of interest to you; then, choose electives in other areas that will round out your education.

Some law schools will accept students who receive a Law Student’s Qualifying Certification from New York State. This certificate is granted to those students who have successfully completed three years of the liberal arts program. No student will receive a degree from St. Francis under this plan. The Law School Admissions Test is required of all applicants by most law schools. This examination is administered by the Educational Testing Service, Princeton, New Jersey. It is suggested that students interested in studying law seek an interview with the Pre-Legal Advisor at the College concerning this examination.
Dean James J. Flynn, Ph.D.
The Division of Continuing Education has the responsibility of opening up the educational potential to all segments of the community. Conscious of our ability to offer many and varied programs to the men and women of the metropolitan area we have accepted the challenge. In the Division a student may complete courses that will bring a baccalaureate degree, or the associate degree that requires only two years. The development of certificate programs in computer science, library science, educational technology, health science, health care, and a large group of pre-professional, in-service and vocational areas are for those who wish to upgrade and prepare for the tasks ahead.

The pre-collegiate section of the division assists in the upgrading and achievement of younger students through remedial programs geared to their special needs, while the Institute for Human Enrichment (the Adult Education branch of the Division) attempts to provide relevant offerings designed to meet all the needs and interests of the community.

The Division of Continuing Education, therefore, attempts to offer new and dynamic approaches to modern higher education. Its concern is with individual growth and development, and its dedication is to the task of seeking out and promulgating relevant answers to the problems of twentieth-century life.

CERTIFICATES OF COMPLETION  
Computer Programming  
Vocational Areas  
Educational Technology
IN-SERVICE TRAINING AND PROFESSIONAL ADVANCEMENT
Teacher Certification  Management Seminars
Audio Visual and  Business Administration
     Television Techniques    and Accounting Workshops

PRE-COLLEGIATE PROGRAMS
Developmental Reading  English as a Second Language
Remedial English

Adult Education courses for human enrichment are also part of the Division's program.
COURSES OF INSTRUCTION

Each credit hour represents class participation one hour a week for one semester at a lecture, or two hours a week for one semester in a laboratory, unless otherwise indicated.

If a course conducted throughout the year is a credit unit, that fact is indicated by a dash. If each term is a separate unit, which may be taken and credited independently, that fact is indicated by a comma.

Courses that have insufficient registration will be cancelled.

ACCOUNTING

ACC 101-102  Elements of Accounting  6 credits
Three lectures per week
An introduction to the basic principles of accounting including the bookkeeping cycle, adjusting entries, and classified financial statements; basic partnership and corporate accounting problems; aspects of managerial accounting.

ACC 201, 202  Intermediate Accounting  6 credits
Three lectures per week
Principles and procedures involved in asset validation and valuation; liability verification; enterprise equity (mainly corporate), including formation and liquidation; special topics. Course proceeds primarily on a problem basis.

ACC 303-304  Cost Accounting  4 credits
Prerequisite: Accounting 101-102
Two lectures per week
Managerial use of cost data for routine planning and control, and for long-range planning; product costing using job order, process, and standard costs.

ACC 305-306  Auditing  4 credits
Prerequisite: Accounting 201, 202
Principles, standards, procedures, and techniques of auditing with emphasis on the analytical approach; electronic data processing and statistical sampling; types of audit examinations with appropriate reports, evaluation of assets, and substantiation of liabilities; an auditing practice case to be completed.
ACC 400  Accounting Internship Program  1 credit
Full-time professional staff work for limited period in public and private accounting; complete analytical written report of experience. Admission to course by permission of department head.

ACC 401-402  Advanced Accounting Problems  4 credits
Prerequisite: Accounting 303-304 and 305-306
Consideration of such topics as home office and branch accounting, consolidations, estates and trusts, foreign branches and governmental accounting; analysis of selected problems from recent CPA examinations.

ACC 404  Advanced Accounting Theory  2 credits
Prerequisite: Accounting 401
Analysis of concepts of income, revenues and expenses, price level changes, assets and liabilities, ownership equities; readings in current literature.

ACC 405-406  Taxation  4 credits
Prerequisite: Accounting 101-102
A study of the basic principles of federal income taxation as applied to individuals, partnerships, and corporations; Social Security, Gift, and Estate taxes.

ACC 407  Accounting Analysis  2 credits
Analysis of balance sheets and operating statements; trend analysis, emphasizing statistical and mathematical approach; concepts of operations analysis.

BIOLOGY

BIO 003-004  Anatomy and Physiology  8 credits
Two lectures, one recitation and three lab. hours.
An analysis of the anatomy and physiology of man at the cellular level as well as the body as a whole. Laboratory experiments and dissections of representative forms to obtain these objectives will be performed. This course open only to those students majoring in physical and health education.

BIO 101-102  Introduction to Biology  6 credits
Two lectures, one recitation per week.
An introduction to the science of biology. Selected topics will include the chemical nature of life processes, cellular basis of behavior, the principles of development, heredity and evolution and the relation of the organism to the environment. The course is designed for non-science majors.

BIO 103-104  General Biology  8 credits
Two lectures, one recitation and three lab. hours per week.
An introductory course in general principles and modes of scientific thought, illustrated by selected examples from the plant and animal sciences.

BIO 201  Embryology  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
A descriptive study of the development of amphioxus, frog, chick and mammal in lecture and laboratory; developmental genetics; the problems of development; an introduction to experimental embryology.
BIO 202  Comparative Anatomy  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
A comparative lecture-and-laboratory study of the macroscopic anatomy of typical representatives of the classes of vertebrates.

BIO 203  Invertebrate Zoology  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
Major invertebrate phyla with emphasis on taxonomy, structure, physiology, and ecology; laboratory dissection of representative types.

BIO 204  Ecology  4 credits
Prerequisite: Biology 101, 102 or 103-104
Two lectures, one recitation and three lab. hours per week.
An introduction to ecological principles and their application to the environment; field trips to representative ecosystems and environmental problem areas.

BIO 205  Bacteriology  4 credits
Prerequisites: Bio. 004 or 102 and Chem. 004 or 102
Two lectures, one recitation and three lab. hours.
An introduction in the morphology and physiology of the more common pathogenic and nonpathogenic bacteria. The laboratory work includes the preparation of media, cultural and biochemical techniques and the identification of unknowns.

BIO 301  Microbiology  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
A survey of the principal groups of microorganisms (bacteria, fungi, algae, protozoa, viruses, and rickettsiae) with emphasis on taxonomy, morphology, physiology and their industrial and medical application.

BIO 302  Botany  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
A survey of the principal groups of plants from the standpoint of their structure and development, with intensive studies on the morphology and physiology of the Angiospermae.

BIO 303  Genetics  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
An introduction to variation and heredity; the theory of the gene as developed in classical genetics, biochemical and molecular genetics; cytogenetics; the genetics of populations; cytoplasmic inheritance, laboratory problems and experiments in drosophila, bacterial, and viral genetics.

BIO 304  Biological Techniques (Instrumentation)  4 credits
Prerequisite: Departmental permission.
One hour lecture, one hour conference and four hour lab.
The theory and practical application of various analytical procedures and the solution of biological problems by instrumentation; practical study of centrifuge, ph meter, analytical balance, dialysis techniques, counter-current distribution, chromatography (paper, column, thin-layer, and gas liquid), spectroscopy (UV-VIS and IR); the use of fluorescent techniques in microbial identification.
BIO 306  Parasitology  4 credits
Prerequisite: Biology 103-104
Two lectures and four hours lab per week.
A study of parasitic protozoa, platyhelminthes, nemathelminthes and arthropoda, stressing their relation to man and their control.

BIO 309  General Physiology  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
A survey of the chemical and physical phenomena involved in cellular processes; the biochemical and biophysical nature of irritability and contraction.

BIO 401  Histology and Microtechnique  4 credits
Prerequisite: Biology 202
Two lectures, one recitation and three lab. hours per week.
A study of the microscopic anatomy of normal animal tissues and organs; the methods of preparing these materials for microscopic study.

BIO 402  Vertebrate Physiology  4 credits
Prerequisite: Biology 103-104
Two lectures, one recitation and three lab. hours per week.
The basic principles involved in the physiology of vertebrate systems; the physicochemical aspects and homeostatic mechanisms of the functional systems.

BIO 403  Endocrinology  3 credits
Prerequisite: Biology 202 and 401
Three lectures per week.
A survey of the glands of internal secretion; each of the endocrine glands will be considered according to structure, synthesis of hormones, regulation of function, action of hormones and the interrelationship with other components of the regulatory system.

BIO 404  Radiation Biology  4 credits
Lecture 3 hours, laboratory 3 hours.
The nature of ionizing radiation; its effects on living systems. Cell death; somatic and genetic effects; effects on the embryo; chronic low dosage exposure; radiation medicine. Detection of ionizing radiation. Uses of ionizing radiation in medicine and in the life sciences.

BIO 501, 502  Biological Research  2 credits
Prerequisite: Department approval
Independent research under faculty guidance. A required written report of the work may be considered part of the comprehensive examination required of all biology majors.

BIO 503  Biology Seminar  1 credit
A discussion by faculty, visiting scientists and students of topics reflecting research and current problems in biological sciences.

BUSINESS LAW

BL 201  Business Law I  3 credits
An introduction to law in general, the Courts, and the legal process together with the law of contracts, agency, and partnership.
BL 202  Business Law II  3 credits
Prerequisite: Business Law 201
The law of corporations, commercial paper and sales.

BL 403  Business Law III  3 credits
Prerequisite: Business Law 201
The law of property, wills, estates, trusts, insurance, secured transactions, bankruptcy, accountants' legal responsibility and government regulations.

BUSINESS MANAGEMENT

BM 201  Industrial Organization and Management  3 credits
Philosophies and methodology underlying the successful operation of a business enterprise including study of the interaction of the use of labor, modern technology, and marketing knowledge; emphasis upon the conceptual aspects of problem solving and decision making utilizing twentieth-century techniques such as the computer, game theory, role playing, etc. The multi-national company and its particular problems will be studied.

BM 202  Marketing  3 credits
Policies concerning market research, product planning, brands, distribution channels, pricing, selling, sales promotion, and advertising; case problems. Marketing in foreign countries and the peculiar aspects of local culture and customs are to be evaluated.

BM 301  Management Theory and Practice  3 credits
Prerequisite: Business Management 201
Examination of organizational structure for similarities and differences in operation; the effective utilization of personnel, coordination of activities, and the functional aspects of enterprises within the American economic system; factors creating successful corporate goals, including motivation of personnel, establishing effective controls, and the social responsibilities of the organization.

BM 302  Marketing Management  3 credits
Prerequisite: Business Management 202
Factors affecting demand and methods of satisfying it; the structure of the market; marketing methods and problems of various agencies; competitive practices; the management of the selling activities of a business; distribution policies, pricing, and the planning of marketing operations; managerial aspects stressed.

BM 303  Corporate Finance  3 credits
Prerequisite: Open only to juniors and seniors
Examine and analyze aspects of financing corporate entities in the functioning of the economy; equity financing, capital structure; bond flotation, mergers and consolidations, holding companies, security underwriting and marketing rights, warrants, and options.

BM 307  Advertising and Sales Promotion  3 credits
Prerequisite: Business Management 202 and 302
The role of advertising in the economy; client-agency relationships, media selection and utilization, importance of selective copy; the objectives of promotion and public relations and the methods of achieving success in them.
BM 308  Quantitative Methods in Business  3 credits
Prerequisites: Mathematics 105, 108 and 301
Undertakes the employment of mathematical and statistical tools in the solutions of business decision problems. Techniques of linear programming, inventory theory, queuing theory, decision theory and computer simulation discussed. (Replaces Economic and Business Statistics)

BM 310  Behavioral Science in Management  3 credits
Examines the business environment from the point of view of the behavioral sciences; the study of fundamental concepts of psychology, sociology, and cultural anthropology for insights into group and individual behavior in the business enterprise; leadership roles, personality dynamics, interaction and motivation of groups and individuals. Differences based upon stem cultures will be evaluated.

BM 314  Credit Management  3 credits
The principles and problems of modern credit management with emphasis on the construction and administration of successful programs for the 1970's.

BM 400  Business Policies  3 credits
Prerequisite: Open only to graduating seniors
The use of previous studies in the areas of management science, finance, personnel, marketing and accounting, and of integrated case studies; analysis of specific problems within a company leading to recommended alternative courses of action; systems or integrated approach to analysis is used, with the student assuming the role of corporate executive in leading group decision-making meetings.

BM 403  Managerial Finance  3 credits
The specific purpose of the course is to give the non-financially oriented student some awareness of the benefits of sound financial management. Among the topics analyzed are: Alternative Strategy Selection, Opportunity Costs, Ratio Analysis, Breakeven Analysis, Operating and Financial Leverage and Mergers and Acquisitions.

BM 404  Personnel Management  3 credits
Prerequisite: Open only to upper juniors and seniors
A study of current personnel administration in various types of organizations; recruitment, testing, placement, motivation, and training of individuals; modern problems of sensitivity training, the effect of cultural differences, governmental assistance and regulations; basic aspects of effective programs of wage administration, employee benefits, and industrial judicial practices (grievances and arbitration).

BM 407  Market Research  3 credits
Prerequisite: Business Management 202 and 302
An inter-disciplinary approach to the study of recognizing and isolating marketing problems, while demonstrating the use of research as a management tool in guiding executive thinking and decision making; cases and problems employed with emphasis on quantitative and analytical techniques.

BM 408  Security Analysis  3 credits
Prerequisite: Business Management 303
Quantitative and qualitative methods of analyzing industrial securities, with greatest emphasis on common stock; principles underlying the selection and management of both individual and institutional portfolios; market timing and technical strategies.

BM 410A, B, C, D  Seminars in Business Problems  3 credits
Seminars in specific types of business enterprises for Seniors who are engaged in the
field. Problem and case discussion techniques to be utilized. Students encouraged to
develop own materials from work situations.
(May be taken as a substitute for BM 400 with permission of Head of Department.)
410A  Banking
410B  Stock Brokerage
410C  Service Industries and Utilities
410D  Insurance

BM 500  Field Case Study  3 credits
Open only to Business Management and Accounting upper Juniors or Seniors
A practical case course with 'hands-on' experience in the field consulting with the owners of small businesses in the metropolitan area. The student analyzes the problems of the firm, suggests solutions and assists the operators of the business in implementing the solutions.

CHEMISTRY

CHE 003-004  Chemistry and Life  8 credits
For students not intending to major in Science.
Two lecture hours, one conference, and three lab hours per week.
Introduction to basic principles of Chemistry. Emphasis is on application of these principles to living systems and their impact on present day living.

CHE 101-102  General Chemistry  8 credits
Two lectures, one conference, and three lab hours per week.
For the science major. Emphasis on quantitative aspects of chemistry at a more specialized level than in Chemistry 003-004.

CHE 201  Analytical Chemistry  4 credits
Prerequisite: Chemistry 102
Two lectures, one conference, and three lab hours per week.
Quantitative study of gravimetric and volumetric analysis; solubility product, acid-base, oxidation-reduction and complex-formation phenomena considered with emphasis upon precision, resourcefulness, and chemical calculations.

CHE 301, 302  Organic Chemistry  10 credits
Prerequisite: Chemistry 102
Three lectures, one conference, and four lab hours per week.
Aromatic and aliphatic compounds; reaction mechanisms based on electronic theory; preparation of representative compounds and quantitative analysis.

CHE 303  Inorganic Chemistry  3 credits
Prerequisite: Departmental Approval
Three lecture hours per week.
The study of bonding, structure, and reactions of inorganic compounds based on modern physical chemical concepts; coordination compounds and organometallic compounds.

CHE 304  Biochemistry  4 credits
Prerequisite: Chemistry 301
Two lectures and four lab hours per week.
Physio-chemical approach; amino acids, proteins, carbohydrates, lipids, enzymes, inter-
ECONOMICS

ECO 201 Principles of Economics I 3 credits
Macro-economics; the foundation of economic analysis; national income, employment and economic growth; aggregate demand, saving and investment; economic fluctuations; monetary and fiscal policy; underdeveloped countries; comparative economic systems.

ECO 202 Principles of Economics II 3 credits
Micro-economics; markets, the price system, and the allocation of resources; competition, monopoly, monopolistic competition, and oligopoly; government and business; the distribution of income.

ECO 302 Economic Development of the United States 3 credits
American economic life, growth of business concentration; problems of agriculture; public utility and railroad regulation; labor organization and development; money, banking, and fiscal problems; capital formation and distribution of national income; the depression and New Deal; the United States in the international economy.

ECO 303 Economic Issues Today 3 credits
An examination of significant contemporary economic problems; the application of economic understanding to current issues, domestic and world-wide; typical relevant issues such as consumerism, environmental adjustments, national economic priorities, the monopoly threat, the United States in the world economy, etc.

ECO 306 Money and Banking 3 credits
Money and credit; commercial banking; central banking; monetary theory and monetary and fiscal policy; other banking and credit institutions; international banking.

ECO 307 Environmental Economics 3 credits
An examination of basic ecological principles and economic principles as they relate to the problems of the environment. An analysis of programs of business and government to ameliorate the environmental effects of production and waste disposal to improve the quality of life.

ECO 308 Urban Economics 3 credits
An examination of the economic foundations of contemporary urban problems; location of central places; the urban hierarchy; the urban economic base; urban land use maps and patterns; problems of housing, urban renewal, mass transportation, industrial relocation, population shifts, ghetto unemployment, inflation, pollution and poverty as economic problems requiring economic solutions.

ECO 309 Labor Economics 3 credits
An examination of labor concepts, markets, and problems; the development of the union movement and its impact on society; modern labor legislation, the development of collective bargaining, and full employment; concepts; unemployment, insecurity, and the operation of the labor market; government in labor problems; theories of wages and employment.

ECO 311 Economic Geography 3 credits
The natural environment in economic life; theories of location and the evolution of patterns of agricultural and industrial distribution; theories of geographical determinants of human behavior; sources and application of energy; the roles of selected commodities.
ECO 312  Public Finance  3 credits
Analysis of the role of government in the national economy. Consideration is given to the growth of the public sector, the US federal budget, the ordering of our national priorities among various public programs, the public debt and fiscal policy, the US tax structure, personal and corporate income taxation, capital gains taxation and tax reform.

ECO 316  Workshop in Personal Finance  3 credits
A lecture-discussion course intended to familiarize the student with the many aspects of his personal finance situation. Personal budgeting, investments, credit usage, mortgages, insurance protection, and related topics are covered.

ECO 317  Contemporary Economic Systems  3 credits
An examination of major economic systems in the contemporary world; the system of Capitalism and the American form; the Command economy of the Soviet Union; the mixed economies of Western Europe and Japan; the Market Socialism of Yugoslavia; the role of economic planning in various systems; evaluation of the performances of economic systems.

ECO 400  Seminar in Economics  3 credits
Principles of research; bibliography; the application of statistical methods to a specific problem for individual research; recent developments in applied economics.

ECO 403  International Economics  3 credits
Principles, practices, and problems of world trade; equilibrating the balance of payments through domestic and exchange rate adjustments; the effect of world trade on national income and output; international trade and domestic employment; regional economic integration; the International Monetary Fund and dollar devaluation; foreign direct investment and the multi-national corporation.

ECO 406  History of Economic Thought  3 credits
A survey of economic thought principally from the seventeenth century to the present day; mercantilism; physiocracy and the emergence of a science of economics; the Classical School; the rise of Socialist protest; marginalism and the neo-classical synthesis; Keynes and post-Keynesian economics.

ECO 408  Economic Analysis: Macroeconomics  3 credits
A theoretical and empirical representation of the operation of the aggregate economy; the development of elementary and advanced models of the economy; and examination of empirical studies designed to test various hypotheses; economic policy suggested by aggregate economic models.

ECO 409  Economic Analysis: Microeconomics  3 credits
The law of supply and demand; costs and production; the law of markets, profits, and losses; the classical theory of value, distribution, and employment; the modern theory of value and distribution under pure and restricted competition; utility and preference fields as basis of demand theory; social costs and welfare economics.

ECO 500  Independent Studies  3 credits
Individual research and study with the approval of the Department of Economics.
EDUCATION

Information concerning the Teacher Training programs will be found on page 58 of this catalogue.

ED 201 Foundations of Education: History and Philosophy 3 credits
The development of the various philosophies of education through a survey of ancient, medieval and modern education; the ends and means in education; educational theory in the United States today.

ED 202 Introduction to the Education of Children and Youth 3 credits
A study of individual differences among children; educationally disadvantaged children; elementary and secondary classroom techniques; basic school problems.

ED 301 Methods, Problems, and Principles in Secondary Education 3 credits
Methods and problems in junior and senior high schools and their relationship to basic principles; consideration of such topics as problems of transition in junior high school, secondary school organization, classroom management, lesson plans, problem-project method, evaluation, discipline, visual aids.

ED 302 Educational Psychology 3 credits
The application of Educational Psychology to the art of teaching and the science of learning with emphasis on growth and development, environmental influences, understanding of the individual pupils, nature and conditions of learning, transfer of past experiences, guiding pupils for personal adjustment and mental health.

ED 312 Foundations of Curriculum in Elementary Education 3 credits
Basic conceptual treatment of child growth and development; curriculum and methods as they apply to the elementary school and early education.

ED 401 Special Methods in Secondary School Teaching
Prerequisites Ed. 301-302.
The following courses are offered under the supervision of the Education Department by Faculty members of the various fields involved. A practicum in lesson planning and demonstration classes is required as part of the courses. The New York State and New York City Syllabi are used as a guide in the practicum.

401C English 3 credits
Teaching various forms of writing, literature and spelling at secondary level; the general aims and purpose of these forms; audio-visual aids, projects, library materials, and bibliographical references for the adolescent; the impact of mass media of communication on the secondary school curriculum.

401D Modern Languages 3 credits
Aims, methods, and objectives of present-day modern language teaching in high schools and junior high schools; practical exercises; visits to local schools.

401E Mathematics 3 credits
The teaching of mathematics in grades 7 through 12; procedures, techniques, and materials; opportunities for student presentations and discussion of strengths and weaknesses.

401F Social Studies 3 credits
Specific methods and techniques useful to the Social Studies teacher on the secondary level; teaching aids, use of library, current events, and bibliographical references; subject materials for the exceptional, disadvantaged and the average student; the syllabi and aims in the various subject areas; model lessons.
401G Reading
Special methods, aims and objectives in teaching reading on the secondary level; remedial and developmental techniques required for teachers on this level; use of Developmental Reading Laboratory and audio-visual aids; individualized reading instruction.

401H Science
A study of basic principles, classroom practices, and curriculum trends in secondary school science courses; experiences helpful to the prospective teacher in evaluating, selecting, preparing materials for teaching science; visual aids, laboratory methods for individual and group experiments, and the organization of materials for classroom use.

401I Religion
Classroom management; general methods; positive approach to God; methods of teaching Sacred Scripture; adolescent psychology; group guidance; techniques of oral presentation.

401J Accounting
Prerequisite: Accounting 101-102
The teaching of accounting by modern methods in accordance with present-day concepts in business education; general principles and techniques of teaching a vocational business subject; skill development and the correct methods and techniques that should be used in accounting procedures.

401K Office Practice
The techniques and principles that are a necessary adjunct to the teaching of office practice and other business subjects; various plans of organization, methods and procedures of filing, indexing, systems, and controls, and the proper use of general office equipment. Students admitted only with the premission of the instructor or the chairman of the Department.

ED 402 Tests and Measurements
Designed for future teachers. The administration of various tests used in a school situation; demonstrations of intelligence tests; the improvement of classroom tests; the use of test results by the administrator, teacher, and guidance counselor; the planning of classroom tests; item types, writing effective test items, and the mechanical features of classroom tests.

ED 404 Observation and Supervised Practice Teaching
During the Senior Year students in the Teacher training program will spend a minimum of one term of supervised instructional experience in an approved Secondary or Elementary School. Aside from the Normal School Experience the student will be expected to attend individual and group conferences with The College Supervisor and cooperating teacher. Students must be approved by the chairman of the Education Department.

ED 411 Special Methods in Elementary School Teaching
The following courses are offered under the supervision of the Education Department by faculty members of the various fields involved.

411A Reading
The basic principles of teaching reading; utilization of formal and informal diagnostic tools to appraise reading status; techniques of grouping for instruction; teaching specific reading skills; evaluating reading progress and appropriateness of reading programs; individualizing reading instruction.
411B  Mathematics and Science     3 credits
The principles and practices employed in teaching mathematics and science in elementary schools.

411C  Literature     3 credits
Children's literature and the techniques used in presenting it to children at different age levels; the use of audio-visual aids; illustrations of children's books.

411D  Social Studies     3 credits
The instructional resources, methods, and materials of a sound social studies presentation in elementary and early adolescent classes; the history, culture, and sociology of various minority groups.

411E  Individualized Reading     3 credits
Each student will be required to collect, construct and evaluate materials for use in a classroom situation, a small group situation, and individualization. Demonstrations by peers, lesson plans and a practicum will be required.

ED 431  Diagnosis and Treatment of Reading Disabilities     3 credits
Prerequisite ED 411A or 401G
A study of formal and informal methods of diagnosis; special in-class room procedures; analysis of the services rendered by clinics and other professional groups.

ED 434  School and Community     3 credits
The school's role in relation to the community; "Inner City" education; the use of community resources in establishing good human relations and adjusting to the cultural and socio-economic changes of our time.

ED 439  Basic Principles of Guidance     3 credits
The relation of basic concepts to in-school problems; the reference materials, resources, and procedures of the guidance counselor in the school.

PSY 404  Developmental Psychology II     3 credits
(see course listing under Psychology)
It is strongly recommended that prospective teachers take Psychology 403 and 404.

ED 476  Techniques of Counseling     3 credits
An introduction to the meaning of counseling; the process, background and instruments used in counseling on an individual and or group basis within a framework of counseling theory. Use of information appraisal, and referral to community agencies. Interpretation of counsel outcomes to school personnel and parents.

ED 477  Educational and Occupational Information     3 credits
To develop an understanding of the career development of the individual-educational, occupational, and personal. Analysis of occupational choice theories and research. Psychosocial and economic trends influencing career decisions; analyses, organizational and dissemination of educational and vocational information materials.

ED 478  Humanistic Approaches to Learning     3 credits
Understanding of human potentials of individuals; student needs and their learning styles; group processes applied in the classroom.

ED 479  Workshop in Educational Problems for Inner City Child     3 credits
Use of new teacher techniques; implementation of innovative curriculum areas; use of community resources.
ED 501A Methods of Teaching Health Education  
In the Elementary and Secondary Schools: 3 credits
An analytical study of texts, materials and teaching methods suitable for presentation in Elementary and Secondary Health Education programs: This course studies techniques of motivation and means by which meaningful health instruction can be integrated and correlated into the school program.

ED 501B Special Methods of Teaching Physical Education  
In Schools 3 credits
Methods of teaching Physical Education in Elementary and Secondary schools: planned observation at both levels; preparation of lesson plans, selection and use of equipment and instructional aids stressed.

ELECTRONIC DATA PROCESSING

EDP 201 Introduction to Electronic Data Processing 3 credits
The fundamental understanding of computers and the methods employed in implementing computer systems.

EDP 202 Information Systems 3 credits
Prerequisite: Electronic Data Processing 201 and 207
The classification, characteristics, and methodology of computer-based information systems; the theory and techniques of systems analysis.

EDP 203 Fortran 4 credits
Required by Science Majors
The functions and capabilities of a digital computer and the FORTRAN programming language.

EDP 204 Advanced Computer Programming 3 credits
Prerequisite: Electronic Data Processing 203 or 205
The functions and capabilities of computing systems; machine-oriented languages; the problems of storing and retrieving information from data files as basic problems in computer-based information systems.

EDP 205 Business Computer Programming 3 credits
Prerequisite: Electronic Data Processing 201
A systematic approach to the task of implementing a computer solution to the needs of information reporting within business; the potentials of problem-oriented languages; the Report Program Generator (RPG) language; actual development of programs on the College's equipment.

EDP 206 Introduction to Operations Research 3 credits
Prerequisite: Mathematics 105 and Electronic Data Processing 201 or 203
The application of quantitative methods in the management process; introduction to techniques for evaluating and choosing among alternative courses of action confronting a decision maker through the use of mathematical and logical models; computer-assisted solutions to sample problems.

EDP 207 Basic Systems and Procedures 3 credits
The fundamentals of systems design in the study of information flow; forms management and record retention; the feasibility study and office work measurement.
EDP 208  Basic Cobol Programming  4 credits
Prerequisite: Electronic Data Processing 201
Presentation of the Cobol Programming Language; programming drills, exercises, and case studies.

EDP 209  Management Information Systems  3 credits
A study of management decision criteria and the information requirements for effective decision-making. Contents include: Decision theory, value and cost of information, data base design, integration of fundamentals information systems, man-machine interaction considerations of design of on-line management approaches, programmed decision making, feasibility analysis.

ENGLISH

ENG 100A  Fundamental English I  3 credits
This course is intended for those incoming students who display a need for the elementary aspects of grammar, sentence structure and composition. Emphasis will be on the use of vocabulary, grammar, punctuation and sentence structure. Drill in the above with constant emphasis and reinforcement of the correct usage of modern American English will be the main body of this course.

ENG 100B  Fundamental English II  3 credits
This course is intended for those incoming students who display a need for help in writing paragraphs, compositions and longer works. Emphasis will be on building the skill of organizing one's ideas and expressing one's thoughts by writing them clearly. Examples of the writing of each student will be examined, corrected and constant help offered to improve the skill needed to write well.

ENG 120  Writing about Literature I  3 credits
An introduction to the short story and novel. Offered every Semester.

ENG 121  Writing about Literature II  3 credits
An introduction to poetry. Offered every Semester.

ENG 122  Writing about Literature III
(Formerly Eng 407A)
An introduction to drama. Offered every semester.

ENG 299  Methods of Literary Research  3 credits
Readings, discussions, and compositions centered on techniques in English literary history: problems in biography, authenticity, source study, chronology, interpretation, and the history of ideas. Offered every semester.

ENG X:  English Option
This special course is open only to those students who received an "A" in English 299 in the semester immediately preceding. See English Department Chairman for details.

ENG 301  Chaucer  3 credits
A study, in the Middle English text, of "The Canterbury Tales," "Troilus and Criseyde," and selected minor works; and of the political, social, and cultural backgrounds of the fourteenth century.
ENG 302  Medieval English Literature  3 credits
A study in modernized texts of the principal English works from the twelfth through fifteenth centuries; and of some non-English works, such as the Arthurian material, which have an important bearing on English literature.

ENG 303  Drama in England to 1700 (Exclusive of Shakespeare)  3 credits
A study of the origins of drama in England; mysteries, miracles, interludes, and farces; close reading of representative plays from the Elizabethan, Jacobean, and Caroline drama; the masque; the heroic play; bourgeois tragedy and Restoration comedy. Theatrical backgrounds from contemporary sources on the staging, acting, costume, and decor of the plays read.

ENG 304  Eighteenth-Century English Literature  3 credits
A survey of the major literary figures of the Enlightenment—Dryden, Pope, Swift, Johnson—with particular attention given to works that are significant and representative; added study of important individual contributions to poetry, the novel, essay, and drama.

ENG 306  The Victorian Period: 1832-1900  3 credits
A survey of the poetry and prose of the period, with particular emphasis on the works of Tennyson, Browning, Arnold, the Pre-Raphaelites, Newman, Carlyle, and Ruskin, as well as some representative novelists.

ENG 307  Sixteenth-Century English Literature  3 credits
A survey of the non-dramatic literature of the period, tracing the roots and development of the Renaissance and Humanism in England; special emphasis on Wyatt and Surrey, Spenser, Sidney, and More.

ENG 308  Seventeenth-Century English Literature: 1600-1660  3 credits
A study of the non-dramatic literature of the period, with special emphasis on the poems of Donne and Jonson and their followers; an examination of the prose works of Bacon, Browne, Burton, among others, as a reflection of the intellectual climate of the age.

ENG 401J, 401K, 401M  American Literature: 1800-Present  9 credits
Analysis of individual works of American literature and discussions of the intellectual, social, and political environments in which they were written.

  401J:  (1800-1860) Major emphasis on Cooper, Poe, Hawthorne, Emerson, Thoreau, Melville.

  401K:  (1860-1920) Major emphasis on Whitman, Dickinson, Twain, James; realism, naturalism, and the new poetry.

  401M:  (1920-Present) Major emphasis on Hemingway, Faulkner, Salinger, and Ellison.

ENG 402X, 402Y  Shakespeare  6 credits
Representative tragedies, comedies, and histories; Shakespeare's non-dramatic poetry; Elizabethan theatrical backgrounds.

  402X:  The tragedies.  Offered every Spring.

  402Y:  The comedies, histories, non-dramatic poetry.  Offered every Fall.

ENG 403  The Romantic Movement  3 credits
A survey of the poetry and prose of the period, with major emphasis on the poetry of
Wordsworth, Coleridge, Byron, Shelley, and Keats; briefer study of the “Pre-Romantic” poets, the novelists Scott and Austen, and the essayists Lamb and Hazlitt.

**ENG 404 Milton** 3 credits
A comprehensive study of Milton’s poetic works; readings of selected prose works in order to illustrate the social, cultural, and religious conflicts of Milton’s age.

**ENG 405 Modern British Literature** 3 credits
A formal introduction to the literature of the period from 1890 to the present; major emphasis placed on the works of Yeats, Eliot, Conrad, Joyce, Lawrence; further perspective provided by the study of a few representative continental writers.

**ENG 450 Seminar** 3 credits
Limited to seniors taking degrees in English; others admitted only with permission of the instructor and the chairman of the department.
- Fall, 1974. Arthurian Legend in Medieval Literature.
- The Heroic Woman in Drama.

Pr. Robert Fox
Pr. Richard Wall

Bro. Austin Gill, OSF
Pr. Frank Caricato

**ENG 500 Independent Studies** 3 credits
Interested students should consult with Department Chairman concerning pre-existing conditions required for this course.

**FINE ARTS**

**FA 401 Music of the Western World** 3 credits
A survey of the important music and musicians of the Western World from the beginning of the Christian Era to the present. Recorded illustrations and lectures.

**FA 402 Orientation In Art** 3 credits
A simple approach to the understanding of the plastic arts on a conceptual basis, including within its scope historical and aesthetic materials.

**FA 404 Modern Art** 3 credits
Prerequisite: Fine Arts 402
A study of the many factors leading to the art traditions, the last one hundred years—from Impressionism to the present.

**FA 405 The evolution of Grand Opera in Western Musical Tradition** 3 credits
Prerequisite: Fine Arts 401
An inquiry into the forces which give rise to this musical art form, its nature, and development to modern times.

**FOREIGN LANGUAGES**

**Elementary Level** 6 credits
FRE 101-102 (French); GER 101-102 (German); ITA 101-102 (Italian); POR 101-102 (Portuguese); SPA 101-102 (Spanish)
The attainment of audio-lingual skills. For students who have not previously studied the language selected or who have studied it for one year only in high school.

**Intermediate Level**

FRE 103-104 (French); GER 103-104 (German); ITA 103-104 (Italian); SPA 103-104 (Spanish)
Prerequisite: 102 or two years of the language in high school.
The control of elementary audio-lingual skills, and their further development; emphasis on developing reading skills.

**Advanced Level**

FRE 105-106 (French); GER 105-106 (German); SPA 105-106 (Spanish)
Prerequisite: 104 or three years of the language in high school conversation and reading; emphasis on developing writing skills.

**Masterpieces**

FRE 201-202 (French); GER 201-202 (German); SPA 201-202 (Spanish)
Prerequisite: 106
Reading and discussion of major works from the medieval period to the 20th century; composition.

**FRE 301 Seventeenth-Century Literature**
Prerequisite: French 202
A study of the social and philosophical movements, and discussion of the significant authors of this period as examples of the spirit of their age.

**FRE 302 Advanced Phonetics**
Prerequisite: French 202
A systematic study of articulation and intonation intended for teachers.

**FRE 303 Advanced Conversation**
Prerequisite: French 202
A course designed to develop the technique and vocabulary of discussion as a supplement to expression in the areas of experience.

**FRE 304 Nineteenth-Century Literature**
Prerequisite: French 202
A study of the principal authors and literary movements of this period, exclusive of the poets.

**FRE 401 Contemporary French Drama**
Prerequisite: French 202
A survey of the development of French Drama from 1870 to the present day; both the literary and technical character of its evolution will be studied in the most representative plays.

**FRE 402 Lyric Poetry in the Nineteenth Century**
Prerequisite: French 202
A study and appreciation of the poetical development in France from Lamartine to Verlaine.

**FRE 403 Twentieth-Century Literature**
Prerequisite: French 202
A study of the development of French literature from 1900 to the present.
FRE 404  Advanced Prose Composition  3 credits
Prerequisite: French 202
A study of the stylistic structure of sentences and paragraphs; review of grammar when necessary.

FRE 405  French Civilization and Culture  3 credits
A study of the characteristics of French culture based upon anthropological and sociological studies; humanistic and scientific contributions to civilization; readings and reports.

FRE 408  Eighteenth-Century Literature  3 credits
Prerequisite: French 202
A study of the literature of the eighteenth century as a reflection of the historical, social, and cultural development of France.

FRE 410  Studies in French
Open to all students; no prerequisites. Liberal Arts credit; does not fulfill a language requirement. French majors may use for free elective credit only.
A course conducted entirely in English and dealing with an aspect of French literature or civilization. Specific topic to be announced each semester.

FRE 410A  The Theme of Love in French Literature (Middle Ages to 1800)  3 credits

FRE 410B  The Theme of Love in French Literature (1800-1972)  3 credits

GER 410  Studies in German
Open to all students; no prerequisites. Liberal Arts credit; does not fulfill a language requirement.
A course conducted entirely in English and dealing with an aspect of German literature or civilization. Specific topic to be announced each semester.

GER 410A  Great Epics of German Literature in English: Themes of Loyalty and Honor  3 credits

GER 410B  German Classical and Romantic Drama as World Literature  3 credits

SPA 302  Contemporary Spanish Literature  3 credits
A study of the outstanding authors of the twentieth century and their works.

SPA 305, 306  Spanish-American Literature  6 credits
Prerequisite: Spanish 202
Selections from the principal Spanish-American writers from the sixteenth century to the present.

SPA 308  Advanced Conversation  3 credits
Prerequisite: Spanish 202
A course to develop the technique and vocabulary of discussion as a supplement to expression in the areas of experience.

SPA 310  Advanced Prose Composition  3 credits
Prerequisite: Spanish 202
A study of the stylistic structure of sentences and paragraphs; review of grammar when necessary.
SPA 401 Spanish Drama of the Golden Age 3 credits
Prerequisite: Spanish 202
A study of the chief dramatists of the period.

SPA 402 Spanish Civilization and Culture 3 credits
Prerequisite: Spanish 202
A study of the characteristics of Spanish culture based upon anthropological and sociological studies; humanistic and scientific contributions to civilization; readings and reports.

SPA 405 Advanced Phonetics 3 credits
A systematic study of articulation and intonation intended for teachers; peninsular Spanish; the development of divergent pronunciation patterns of Latin-American Spanish.

SPA 406 The Novel and Poetry of the Golden Age 3 credits
Prerequisite: Spanish 202
A study of the principal poets of the age; birth and development of the pastoral and picaresque novels; readings and discussions; reports.

SPA 407 Cervantes 3 credits
Prerequisite: Spanish 202
An analysis of Cervantes’ works and their importance in the literature of the Siglo de Oro; readings and discussions; reports.

SPA 410 Studies in Spanish 3 credits
Open to all students; no prerequisites. Liberal arts credit; this course does not fulfill a language requirement. Spanish majors may use for free elective credit only.
Description: A course conducted entirely in English and dealing with major aspects and themes of Hispanic literature or culture. Specific topic to be announced each semester.

SPA 410A Death and Immortality in Spa. Lit. 3 credits
The theme of death and immortality in Spanish Literature. Middle Ages through 19th century.

SPA 410B Contemporary Hispanic Lit. 3 credits
Eros and Thanatos, leading themes of Ruben Darío. Obsession with death and immortality in the works and life of Unamuno.

FRENCH (SEE FOREIGN LANGUAGE)

 GEOGRAPHY

GEO 312 Introductory Geography 3 credits
Recommended for teacher training in Social Studies.
A study providing an orderly examination of the world’s spatial complexities; emphasis on landscape features, transportation, landforms, vegetation, soil, land cultivations.
GERMAN (SEE FOREIGN LANGUAGE)

GREEK

GRK 001 Civilization of the Greek World 3 credits
No prerequisite
Development and salient characteristics of the ancient Greek civilization, with special emphasis upon Greek contributions to western civilization. This is a lecture course in English and a knowledge of Greek is not necessary.

GRK 101-102 Elementary Greek 6 credits
Introduction to Greek language and literature. Credit for this course is allowed only to those who have not offered Greek for entrance.

GRK 203 Intermediate Greek 3 credits
Prerequisite: Greek 102 or equivalent
Study of Homer and the epic; readings.

HEALTH CARE

HC 401 Institutional Management in the Health Field 3 credits
An introductory view of the manifold complexities of Institutional Management. Hospitals, Nursing homes, Custodial Institutions will be delineated and described, organizationally and legally. Major problems in administering the modern Health Care Institution are outlined and the groundwork for future study planned.

HC 402 Cost Analysis and Budgeting 3 credits
A study of the aspects of the budget, cost controls and financial administration of health care facilities with particular emphasis on the interrelationship between individual departmental budgets and the total budget. Sources of funds, their use and importance to the total financial picture will be studied and analyzed.

HC 403 Legal Aspects of Health Care Administration 3 credits
Requirements of medical record keeping, hospital liability consent forms, laws governing hospitals and other care facilities, current malpractice decisions, insurance responsibilities of Administrators, rights of patients, parents, the public, etc.

HC 404 Personnel Administration 3 credits
Supervision, recruitment and training of staff; problems of employees; management control; techniques in interviewing; discipline techniques; union relations and negotiations; employee rights and benefits.

HC 405 Problems Workshop in Health Care Management 3 credits
In depth case study programs in the administration of health facilities with particular emphasis on day by day problem solving and the creation of a philosophy of management styles.

HC 406 Professional Staff Relationships 3 credits
A study of the manifold problems concerned with the interrelationships of the various segments of the personnel found in health care facilities. Understanding of the positions of the professionals, semi-professionals, skilled and unskilled work forces in the institution. The problems of establishing positioning between the groups and the responsibilities of each group to each other and the institution.
HC 407  Influences of Government and “3rd” Parties  3 credits
Overview of the changes wrought by the government programs and other “3rd” party payment and control on the health care facility. A study on the new and proposed legislation on health delivery plans will enable the student to more fully understand the changing face of the profession.

HC 411  Mental Health Care Administration  3 credits
A study of the problems peculiar to the custodial facilities in terms of legal areas and the nature of longterm internment. The changes in recent years such as half-way houses, community facilities and the inclusion of drug and alcohol problems. The student will research various new programs and attitudes involving commitment proceedings, release on probation, et al.

HC 430  Problems Workshop in Community Health Care Management  3 credits
In depth case study programs in the administration of community health care facilities with particular emphasis on the day by day problem solving and the creation of a philosophy of management style.

HC 431  Development and Community Relations  3 credits
This area, which includes, but is not limited to fund raising, is a most important one today. Studies on plans for fund raising, development for procedures in use throughout the world and the setting up of a community relations program will be made available for discussion. The setting up of lines of communication with the neighborhood, governmental authorities and others concerned with the welfare of the institution will be analyzed.

HC 433  Comparative Health Care Systems  3 credits
A course designed to give the student an awareness of health delivery systems as practiced throughout the world. The advantages and disadvantages of each will be studied and discussed.

HC 435  Issues in Geriatric Care  3 credits
Problems workshop format for the study of the unusual areas in the care of the aged. In-basket decision-making will be utilized to teach this innovative course. The Senior Citizen Hotel, the extended care facility, the foster-grandparent program and numerous other new concepts with the aged will be analyzed.

HEALTH SCIENCE

HS 101  Personal Health  3 credits
An introductory overview to the entire area of Personal Health. Factors in personal health at various periods in the life span, role of the Health Educator in understanding human nutritional, psychological and environmental needs. Special emphasis on Personal Health problems caused by urban living.

HS 102  Community Health  3 credits
This introduction to the problems of community health covers the spectrum of health problems currently providing the greatest fears and concerns. Sanitation, pollution, food purity, narcotics, venereal disease etc. all outlined as to severity and compared to community health problems in other areas. Special note taken of public and community health picture in the urban environment.
HS 103 Epidemiology 3 credits
An introductory study to the natural history of disease in various population groups. Causes from the environments as well as biological factors influencing the emergence of diseases are treated, theory and practice relating to the prevention and control of diseases of importance in public health.

HS 202 Health Problems 1 credit
A study of the effects of the use of alcohol, tobacco, drugs, and narcotics upon the individual; the venereal diseases; current conditions likely to affect the health of the student.

HS 203 Safety Education 2 credits
An examination of the principles and practices of safety and the identification of responsibilities of community agencies and the individual for safe living. Types of accident hazards, conditions causing them, and the extent of accident prevention at national, state and local levels.

HS 204 Environmental Health 3 credits
Consideration of environmental health problems. Topics discussed include pollution, natural resources, urban migration, radiation noise, and food contamination.

HS 205 Nutrition 2 credits
A study of the nutrients; fundamental principles of normal nutrition and their application to the selection of adequate diets for individuals and families of varying economic strata. Nutrition programs on the national, state and community levels discussed. Students are taught to research, prepare and organize nutrition educational material.

HS 301 Health Counselling 2 credits
The core of the effective Health program is the ability of the Consultant to organize and guide in ways that bring about new health attitudes and improved health habits. Physical, mental, emotional and social health problems of school children on elementary and secondary levels, adult health needs, remedial procedures, handling of confidential records, counselling techniques; health aspects of educational and vocational guidance.

HS 302 Consumer Health Education 2 credits
This course studies the problems of consumers relative to food purchases with the purpose of instructing the Health Educator in the legal and methodological aspects of this public health concern. False advertising, incorrect labeling and introduction of harmful ingredients into the merchandise offered for sale studied. Hazards of various products, manufacturers' warranties etc. discussed. Referral agencies for public redress described; organization of school and community programs for consumer protection.

HS 303 Home and Family Living 2 credits
Family living is treated as a crucial focal point of healthful living. The family is described as a group of persons each interacting. Emphasis placed upon the study of foundations of marriage, planning for parenthood, provisions for health and insurance, retirement planning. Current issues in marriage and family life discussed, the generation gap, alternate life styles etc.

HS 304 Mental Health 2 credits
A study of the basic principles of good mental health developed in the present framework of school and community living. Forces and stresses tending to cause anxiety, nervousness, psychological neuroses etc. treated with a view towards organizing programs in mental health. Students are trained to refer suspected cases of serious mental problems to designated referral agencies and psychiatric personnel.
HS 310  Health and Safety in the Elementary Schools  2 credits
Designed to help classroom teachers make a major contribution to the improvement of health and safety of children. The content includes the elementary school health program, the role of the teacher, planning, methods and materials, sources of teaching aids, and evaluation.

HS 401  Organization and Administration of the School Health Education Program  3 credits
An introduction to the establishment and implementation of the total school health education program: health instruction, health services, health environment and the health of school personnel. For future teachers, health coordinators, and administrators.

HS 410  School Health Curriculum  3 credits
A detailed study of the development, implementation and evaluation of a health curriculum. Curriculum innovations will be explored. For all health education majors.

HS 463  Crucial Health Issues  3 credits
Examines health problems of major concern. The course deals mainly with Narcotics and Drug Abuse, Venereal Disease and Alcoholism and Tobacco usage. Public attitudes toward diseases and their willingness to cooperate in public and school health programs discussed. Comparisons to crucial problems elsewhere made. Students research methods and materials for setting up school and community health programs dealing with these issues. Referral agencies, such as voluntary health organizations, World Health Organization etc. discussed and utilized.

HS 464  Biostatistics  3 credits
An introduction to communicable and non-communicable disease data of the health fields, methods of collecting, tabulation, and elementary methods of analyzing some of the prevalent diseases in the community.

HS 501  Organization, Administration and Development of Public and Community Health Programs  3 credits
Laws and regulations delineating the state’s concerns in the community health area discussed. Role of the Community Health planner in organizing programs dealing with public health problems. Structures of organizations, chains of command, intragroup and intergroup communications methodology. Utilizing community agencies as resources in developing community health programs—education of the public in areas of health concern, improving efficiency of health delivery services.

HS 504  Internship—Community Health Programs  6 credits
Students select areas and topics of interest for research. Field experiences, apprenticeships etc. are arranged. Students work in field experiences with community health organizations, hospitals, voluntary health organizations etc. Field experiences are supervised—training lasts a minimum of one semester although a longer period is desirable. Students hold seminar meetings to discuss problems encountered and progress made in solving them.

HISTORY

HIS 101; 102  Survey of Western Civilization  6 credits
A two-semester survey of the principal political, economic, social, religious, cultural, and intellectual forces in Western Civilization.
HIS 201  History of the United States 1896 to the Present  3 credits
The major economic, social, intellectual, and political movements of the twentieth century in the United States.

HIS 202  Ancient History  3 credits
A study of ancient history from the origin of man to the "Fall of Rome"; contributions made by the ancient world to modern civilization.

HIS 301  Medieval History  3 credits
A survey of a history of the Middle Ages; feudalism, universities, monarchy, church, the Hundred Years' War.

HIS 303  The World in the Twentieth Century  3 credits
A study of world history as seen from our century; the Russo-Japanese War, problems in Africa, the Balkan question, World Wars I and II; the conferences during and after the wars.

HIS 305  Latin American History I  3 credits
A survey of Latin American history from pre-conquest days through the independence movement; relationships of the period to present-day Latin America.

HIS 306  Latin American History II  3 credits
A survey of contemporary Latin America; church-state relationships, land, labor, trade, and culture.

HIS 307  American Minorities  3 credits
A survey of the peopling of the North American continent, with particular emphasis upon the United States.

HIS 311  A History of the Black American  3 credits
A study of the Black American from 1619 to the present, with emphasis placed on the blacks in the United States during the twentieth century.

HIS 312  Renaissance and Reformation  3 credits
Intellectual and religious movements during the transition from the Middle Ages to modern times.

HIS 313  International Labor Movements  3 credits
A comparative study of the origins and development of trade unionism and the present roles of labor internationals and national federations both in developed and underdeveloped nations including the U.S., Western European and Latin American blocs, the Soviet Union, Japan and the People's Republic of China.

HIS 314  Nations of the Modern World  3 credits
The nations of the world in modern times, offered in seven parts.
  a) France.
  b) Latin America (Argentina, Brazil, Mexico).
  c) China.
  d) Russia.
  e) Italy.
  f) England.
  g) Germany.
  h) Ireland.
HIS 400  Historical Seminar  3 credits
A thesis seminar. Emphasis placed on research and historical criticism. Divided into two separate seminars—Local History and Problems of the Western Hemisphere.

HIS 401  History of the United States: The Age of Discovery—1789  3 credits
A survey from the earliest explorations and discoveries to government under the Constitution; the colonial struggles, the dominance of Great Britain, the Revolutionary War, the "Critical Period."

HIS 402  History of the United States: 1789-1896  3 credits
A study of the United States as it struggled to set the new government into motion; political, economic, cultural, and diplomatic developments in the nineteenth century.

HIS 403  Modern European History: 1600-1763  3 credits
A study of the history of Europe from the end of the religious revolts to the end of the Seven Years' War; the Thirty Years' War, the Commercial Revolution, the rise of the nation-state, the age of absolutism and enlightenment.

HIS 404  Modern European History: 1763-1900  3 credits
A study of the causes and effects of the French Revolution, the era of Metternich, emphasis on the Franco-Prussian War, the growth of nationalism, socialism, and democracy.

HIS 405  Cultural and Social History of the United States  3 credits
A study of the cultural and social developments in the United States; the trends of literature, arts, science, and philosophy as America comes of age.

HIS 406  Current Problems  3 credits
An analysis of the major problems of the following world areas: Far East, Africa, Latin America, Middle East; a lecture course conducted by leading figures in academic, political, and diplomatic fields. Offered in the spring semester on a four-year cycle.

HIS 407  Survey of United States Foreign Relations  3 credits
A survey of American diplomacy from 1775 to present; "Manifest Destiny," the Civil War, the United States as a world power, and the United States after two World Wars.

HIS 408  Historiography  3 credits
A study of the sources of history; historians from major periods; the intellectual viewpoint in history; the distinctive types of historical writing.

HIS 409  The American Presidents  3 credits
A study of the historical evolution of the Presidency from the eighteenth century to the present, emphasizing both the institutions and the characters of the men who held the office.

HIS 410  The American City  3 credits
Tracing the historical evolution of the city from the foundation of Jamestown to the present day. This course describes the major trends in urban development, the importance of the city in American history and the problems confronting urban America today.

ITALIAN (SEE FOREIGN LANGUAGE)
LATIN

LAT 001  Civilization of the Roman World  3 credits
No prerequisite
Development and salient characteristics of the ancient Roman civilization, with special emphasis upon Roman contributions to Western civilization. This is a lecture course in English and a knowledge of Latin is not necessary.

LAT 101-102  Elementary Latin  6 credits
Introduction to Latin language and literature. Credit for this course is offered only to those who have not offered Latin for entrance.

LAT 103  Intermediate Latin  3 credits
Prerequisite: Latin 102 or two years of high school Latin.
Reading selections; emphasis on Cicero, Ciceronian style.

LAT 106  Advanced Latin  3 credits
Prerequisite: Latin 103 or three years of high-school Latin.
Reading selections; emphasis on Virgil; study of prosody.

LAT 204  Latin Comedy  3 credits
Prerequisite: Latin 106 or equivalent.
Readings in Plautus, Terence; origins of drama.

LAT 301  Latin Satire  3 credits
Prerequisite: Latin 204 or equivalent.
Readings in Horace, Juvenal, study of satire.

MATHEMATICS

MAT 101  Fundamental Algebra  3 credits
Algebraic techniques; solution of first degree equations; graphs of linear and parabolic curves; applications with emphasis on business problems; compound interest and simple annuities.
Intended for students who enter without three units of H.S. Mathematics, or with permission of Department Chairman.
These credits may be used as elective credits towards the degree, but may not be used for required mathematics courses.

MAT 103  Foundations of Mathematics I  3 credits
Historical orientation of mathematics; logic, number concepts, and algebra; readings on the mathematical order of nature; projective geometry and coordinate geometry. Intended for B.A. students.

MAT 104  Foundations of Mathematics II  3 credits
Applications of simple formulas; review of basic algebra; application of formulas to astronomy and gravitation; basic concepts of the calculus; trigonometric functions with applications to music; non-Euclidean geometries; modular arithmetic. Intended for B.A. students.

MAT 105  College Algebra  3 credits
Prerequisite: Mat 101 or three years of high school mathematics
Postulates; number system; linear and quadratic equations and functions; inequalities;
mathematical induction; binomial theorem; determinants and matrices. Intended for Accounting, Business Management, and Economics Majors.

MAT 108  Principles of Mathematics  
Prerequisite: Mathematics 105  
An introduction to differential and integral calculus with the analytic geometry of simple conics and functions; emphasis on applications, including the calculus of polynomial, logarithmic, and exponential functions. Intended for Accounting, Business Management and Economics Majors.

MAT 109  Finite Mathematics  
Prerequisite: Mathematics 105  
Algebra of matrices; number bases; linear programming; applications.

MAT 202  Calculus I  
Prerequisite: Intermediate Algebra and Trigonometry or Eleventh Year Mathematics  
Emphasis given to calculus, including the differentiation and integration of simple algebraic forms, areas, volumes, rate and distance problems, differentials, approximate integration; polar coordinates and parametric equations are also studied.

MAT 203  Calculus II  
Prerequisite: Mathematics 202  
Derivatives of trigonometric, logarithmic, and exponential functions, integration by formal methods, by parts, by trigonometric substitution, by partial fractions; areas and volumes; arc length and surface areas; approximate integration.

MAT 301  Statistics  
Prerequisite: Mathematics 105 or 202  
A study of the principles and methods underlying collection of data, tabular and graphic representation, frequency distributions.

MAT 304  Calculus III  
Prerequisite: Mathematics 203  
Convergent and divergent series; expansion of functions in series; partial derivatives; double and triple integrals with applications; vector algebra with applications.

MAT 305  Theory of Equations  
Prerequisite: Mathematics 202  
Complex numbers, polynomials, algebraic equations, solutions of cubic and biquadratic; Cardan’s and Ferrari’s formulas; ruler and compass constructions; determinants and matrices.

MAT 307  Probability and Statistics I  
Prerequisite: Mathematics 203  
A study of probability in finite sample spaces, discrete type random variables, and probability density functions with emphasis on the binomial and Poisson distributions and their applications to testing statistical hypotheses.

MAT 308  Probability and Statistics II  
Prerequisite: Mathematics 304 and 307  
Continuous type distributions, sampling theory, transformations of variables, point estimation, sufficiency and stochastic independence, limiting distributions, and statistical hypotheses.
MAT 309  College Geometry  3 credits
An extension of Euclidean geometry; a critical evaluation of the Euclidean postulates; a study of other geometries; projective, other non-Euclidean geometries.

MAT 400  Mathematics Seminar  2 credits
Restricted to senior and qualified junior mathematics majors. A lecture and problem seminar.

MAT 401  Differential Equations I  3 credits
Prerequisite: Mathematics 203
Methods of solving ordinary, differential equations with applications to problems in geometry, physics, and chemistry; differential equations of the first order and the first degree or degree higher than first, and of the second order; linear differential equations with constant coefficients.

MAT 402  Differential Equations II  3 credits
Prerequisite: Mathematics 401
Methods of equations of order higher than the first; integration in series; Legendre’s equation; Bessel’s equation; total differential equations; partial differential equations of the first order and of higher orders; Fourier series; applications.

MAT 403  Advanced Calculus I  3 credits
Prerequisite; Mathematics 304
Rolle’s Theorem; law of the mean; partial differentiation and implicit functions; Taylor’s series; differentiation and integration under integral sign; line integrals; theory of integration.

MAT 404  Advanced Calculus II  3 credits
Prerequisite: Mathematics 403
Series—absolute and uniform convergence; special integrals; improper integrals; gamma and beta functions; introduction to complex functions.

MAT 406  Theory of Numbers  3 credits
Prerequisite: Mathematics 202
An introductory course dealing mainly with divisibility, number theorems, theory and congruences, quadratic residues, and Diophantine equations.

MAT 407  Vector Analysis  3 credits
Prerequisite: Mathematics 304
The algebra and calculus of vectors, coordinate systems, scalar or dot product; applications to space geometry; vector operators, divergence of a vector, and curvilinear coordinates; line and surface integrals; Stoke’s theorem and applications.

MAT 408  Numerical Analysis  3 credits
Prerequisite: Mathematics 304 and 401 and Electronic Data Processing 203
Numerical solutions of equations, difference tables, operator methods; numerical differentiation and integration; numerical solution of ordinary differential equations; systems of linear equations; solutions by iterative methods.

MAT 409  Modern Algebra  3 credits
Prerequisite: Mathematics 304
Sets and mappings; theory of groups, rings, and fields; isomorphism; the field of real numbers and the field of complex numbers.
MAT 410  Functions of a Complex Variable  3 credits
Prerequisite: Mathematics 403
Point set theory; algebra of complex numbers; complex analysis; Cauchy-Riemann partial differential equation; Cauchy-Goursat theorem; conformal maps.

MAT 411  Real Variables  3 credits
Prerequisite: Mathematics 403
The real numbers and the concepts of limit, sequence, and series; functions of one real variable, continuity, derivative integrals.

MAT 412  Linear Algebra  3 credits
Prerequisite: Mathematics 304
Vector spaces; basis; dimension; systems of linear equations; matrices and determinants; scalar product; orthogonality and eigen-values.

MAT 414  Topology  3 credits
Prerequisite: Mathematics 403
Set theory; definition of topology and topological space; homeomorphism and homeomorphic spaces; compactness and connectedness; separation axioms; metrics spaces and completion of a metric space.

PHILOSOPHY

The student is required to choose one course in Group “A”, then one course in Group “B”, and then one course in Group “C”.

GROUP “A”

PHI 101  Basic Problems in Philosophy  3 credits
An introduction to philosophical inquiry through an examination of questions in the different areas in philosophy.

PHI 314  Logic  3 credits
An introduction to traditional and modern logic with emphasis on exercises in deduction.

GROUP “B”

PHI 201  Philosophy of Man  3 credits
An inquiry into the nature of man through the analysis of such concepts as mind and body, sensation perception, and intellection, reason and passion.

PHI 302  Theory of Knowledge  3 credits
An examination of the concepts of definition, description, explanation, first principles, hypotheses, evidence, certitude and truth.
GROUP "C" AND OTHER COURSES

PHI 403  Moral Philosophy  3 credits
Basic questions of moral philosophy with particular attention to the question of relationships between a given ethic and its corresponding conception of man and being.

PHI 404  Political Philosophy  3 credits
Fundamental concepts and problems in political philosophy: law, power, freedom, tyranny, political society.

The following courses in philosophy will be offered on a two year cycle.

PHI 309  Marxism  3 credits
Concepts, sources, backgrounds of Marxism; dialectical and historical materialism; Hegel and Feuerbach; problem of history; meaning of work; notion of superstructure; concept of revolution.

PHI 310  American Philosophy  3 credits
Distinctive characteristics of American philosophic thought analyzed and discussed; attention to thought of Edwards, Emerson, Royce, Santayana, Pierce, James, Mead, Dewey.

PHI 323  Existentialism  3 credits
Analysis of texts from the writings of such philosophers as Kierkegaard, Nietzsche, Heidegger, Jaspers and Sartre.

PHI 326  Philosophy of Science  3 credits
The concept of natural science through and analysis of its central themes: hypothesis and evidence, criteria for verification and confirmation, role of law in explanation, theories and theoretical reduction. Contrasting views will be presented and discussed.

PHI 431  Greek Philosophy Seminar  3 credits
Close examination and analysis of representative texts in ancient philosophy with particular emphasis on Plato and Aristotle.

PHI 432  Medieval Philosophy Seminar  3 credits
Close examination of representative texts of major figures from the Christian, Arabic and Jewish traditions. Particular attention to the question of the relation between philosophical inquiry and religious belief.

PHI 441  Modern Philosophy Seminar  3 credits
Close examination and analysis of representative texts of some of the major figures in modern European philosophy from Descartes to J.S. Mill.

PHI 442  Contemporary Philosophy Seminar  3 credits
Concentration on the analysis of some representative works from major tendencies in contemporary philosophic thought.

PHYSICAL EDUCATION

PE 1  Skills Activities (M, W)  2 credits
Three Hours
Theory, Instruction and practice in the fundamentals of team sports and games. Techniques in Soccer and Volleyball; including coaching techniques.
COURSES OF INSTRUCTION

PE II  Skills Activities (M, W)  2 credits
Three Hours
Theory, instruction and practice in the fundamentals of team sports and games. Techniques in basketball, softball, baseball, and track and field; including coaching methods.

PE III  Skills Activities (M,W)  2 credits
Three Hours
Theory and instruction of individual and dual sports. Techniques in tennis, badminton and golf; including coaching methods.

PE V(M)  Skills Activities (M)  2 credits
Three Hours
Theory, instruction and practice in the fundamentals of team sports and games. Techniques in wrestling, team handball and football; including coaching methods.

PE V(W)  Skills Activities (W)  2 credits
Three Hours
Theory, instruction and practice in the fundamentals of team sports and games. Techniques in field hockey, speedball and football; including coaching methods.

PE 101  (M,W) Lifetime Sports  1 credit
One Hour
Students may select any of the following activities:
   a. Basketball   h. Modern Dance
   b. Volleyball   i. Folk Dance
   c. Badminton   l. Tennis
   d. Swimming   m. Yoga
   e. Lifesaving   p. Karate
   g. Gymnastics   q. Golf

PE 103  Elementary Aquatics (M,W)  1 credit
Two Hours
Fundamentals and development of forms and style in stroke mechanics. Students must demonstrate basic swimming proficiency.

PE 104  Advanced Aquatics (M,W)  1 credit
Prerequisite: PE 103 or Departmental Approval
Two Hours
Techniques in competitive swimming and coaching methods. Lifesaving leading to American Red Cross—Senior Life-Saving Certification.

PE 105  Folk, Square and Social Dance  1 credit
Two Hours
Instruction and practice in the basic steps and techniques of folk, square and social dance.

PE 106  Modern Dance  1 credit
Two Hours
An introduction to the fundamental techniques of Modern Dance.

PE 201  The Recreation Program  1 credit
One Hour
The preparation of non-professionals and volunteer workers for neighborhood community recreational programs; programs, use of facilities, public relations, and leadership; local youth service organizations.
PE 203  Community Recreation  
Three Hours  
History and philosophy of recreation; consideration of current problems; recreational organization and leadership; intensive study of urban community programs.

PE 205 (M), (W)  Elementary Gymnastics  
Two Hours  
Tumbling and apparatus development of basic skills; floor and mat stunts.

PE 208  Applied Anatomy and Physiology (Kinesiology)  
Prerequisite: Biology 004 or 104  
Two Hours  
Emphasis on the action of the joints, muscles, and ligaments involved in physical exercise, their relationships to other body systems and the mechanical principles involved.

PE 210  Philosophy & Techniques of Coaching & Officiating  
Two Hours  
Evaluation of procedures, principles and methods of coaching and officiating for Elementary Schools, Secondary Schools, and non-school recreational groups. For practical applications, students will referee in the college Intramural Program.

PE 211  Mouvement Education and Games of Low Organization  
Three Hours  
Prerequisite: PE I, II, III or V or Departmental Approval  
Techniques and methods in conducting elementary games. Theory and practice in rhythmic activities and movement education applicable to different age levels.

PE 212  Intermediate Gymnastics (M,W)  
Prerequisite: PE 205 or Departmental Approval  
Two Hours  
Emphasis on methods and procedures for individual and group instruction; including gymnastic games and exhibition gymnastics.

PE 213  Advanced Gymnastics (M,W)  
Prerequisite PE 205  
Two Hours  
Advanced Skill Techniques in heavy apparatus, stunts and tumbling; competitive gymnastics and coaching methods.

PE 301  History and Principles of Physical Education  
Two Hours  
Orientation in the history and principles of physical education; current trends and problems in physical education analyzed and evaluated.

PE 302  Physical Education for the Atypical  
Prerequisite or Corequisite PE 208  
Two Hours  
Development of therapeutic exercise programs and of modified athletic activities to meet the specific needs of the handicapped.

PE 304  Organization & Administration of Physical Education  
Prerequisite: PE I, II, III, or V or Departmental Approval  
Three Hours  
Emphasis on organization and administrative policies and procedures purchase and care
of equipment and supplies, public and professional relations, structural and functional aspects of a school program, in physical education athletics and intramurals.

**PE 305  Physiology of Exercise**  
Prerequisite: Biology 004 or 104, Chemistry 003  
Two Hours  
Physiological effects of exercise and of movement on the human body; physiology of growth and of development; the neuromuscular bases of physical activity.

**PE 307  Camp Administration**  
Three Hours  
Study of various types of camps; counselor selection and training, program planning, facilities and equipment, health and safety; basic principles and current trends in camping.

**PE 308  Motor Learning**  
Prerequisite or Corequisite: PE 208  
Two Hours  
An introduction to the concepts, principles and theories of movement and motor learning.

**PE 402  Evaluation of Physical Education**  
Prerequisite: PE I, II, III or V  
Three Hours  
Methods and procedures used in the construction, administration and interpretation of standardized testing in Physical Education; introduction to elementary statistical methods.

**PE 403  Care & Prevention of Athletic Injuries**  
Prerequisite or Corequisite: PE 208 or Departmental Approval  
Three Hours  
Study of the most common accidents and injuries in Physical Education and rehabilitation equipment, message and training room procedures. Current trends in sports medicine. First Aid leading to American Red Cross Certification in standard First Aid and personal safety.

**PHYSICS**

**PHY 101-102  General Physics**  
Prerequisite or Corequisite: Mathematics 202, 203  
Two lectures, two recitations, and two lab hours per week.  
An elementary consideration of the fundamental laws and concepts of mechanics, heat, sound, light, electricity, and magnetism; experimental study of various topics made in the laboratory.

**PHY 201  Mechanics I**  
Prerequisite: Physics 101-102; Prerequisite or Corequisite: Mathematics 304  
Vectors; statics; work and the stability of equilibrium; oscillatory motion in one dimension; motion of a system of particles; motion of a rigid body in two or three dimensions; central force fields; accelerated reference systems; normal coordinates and wave motion; introduction to Lagrangian and Hamiltonian mechanics.
PHY 202  Electricity and Magnetism I  3 credits
Prerequisites: Physics 101-102, Mathematics 304
Vector calculus; electrostatic fields; solutions of Laplace’s equation and Poisson’s equation; dielectrics; magnetic fields due to steady currents; magnetic potentials; magnetic media; Maxwell’s equations; plane electromagnetic waves and radiation.

PHY 303  Modern Physics  3 credits
Prerequisite: Physics 101-102
Special theory of relativity; waves and particles; atomic structure; Bohr-Sommerfeld theory; introduction to quantum mechanics with detailed application to the hydrogen atom; electron spin and complex atoms; the physics of molecules; the atomic nucleus, nuclear decay, and nuclear reactions.

PHY 304  Thermodynamics  3 credits
Prerequisite: Physics 101-102
The first and second laws of thermodynamics with various applications; introduction to the kinetic theory of gases and statistical mechanics.

PHY 306  Optics  3 credits
Prerequisite: Physics 101-102
Principles of reflection, refraction, and interference; Fresnel and Fraunhofer diffraction; dispersion, polarization, and radiation.

PHY 311  Intermediate Laboratory  2 credits
Prerequisite: Physics 101-102
Four Lab hours per week.
Basic experiments selected from atomic physics, electricity, magnetism, or optics so chosen to meet the interests of the individual student.

PHY 401  Mechanics II  3 credits
Prerequisites: Physics 101-102, Mathematics 304, 401
Variational principles and Lagrange’s equations; rigid body motion; Hamilton’s equations; canonical transformations; Hamilton-Jacobi equation; small oscillations.

PHY 402  Electricity and Magnetism II  3 credits
Prerequisites: Physics 101-102, Mathematics 304, 401
Maxwell’s theory; electromagnetic waves in free space and matter; guided waves; radiation of a moving charge.

PHY 405-406  Mathematical Physics  6 credits
Prerequisites: Mathematics 304, 401
Partial differential equations of physics and their solutions; Sturm’s theory of ordinary differential equations; eigenvalue problems; calculus of variations; Fourier expansions; Legendre polynomials and Bessel functions; spherical harmonics; Fourier integral and transforms; Green’s functions.

PHY 412  Advanced Laboratory  2 credits
Prerequisite: Physics 311
Four lab hours per week.
Selected experiments in atomic physics, electricity and magnetism, electronics, or optics chosen according to the interests of the student. The experiments are more detailed and require more background in physics than those on the intermediate level.
COURSES OF INSTRUCTION

PHY 413, 414  Electronics  8 credits
Prerequisite: Physics 101-102
Three lectures and two lab hours per week.
Electron ballistics; electron emission from metals; vacuum and gas tubes; rectifier cir-
cuits; amplifying circuits; vacuum tube oscillators; modulation and detection; semi-
conductors and solid state physics devices; experimental study of these topics in the
laboratory.

POLITICAL SCIENCE

P SC 202  Introduction to Political Science—Scope and Method  3 credits
Survey of the major contemporary trends in Political Science research enables the stu-
dent to understand and work with a variety of analytical tools.

P SC 204  American National Government  3 credits
A study of the constitutional basis, structure, and functioning of American National
Government; the legislature, executive, judiciary; public opinion; pressure groups, the
electoral system.

P SC 301  Comparative Government  3 credits
A study of the basic political ideas and institutions of the major foreign powers; the
evolutions of the principles, methods, and problems of European and American
Governments.

P SC 303  American Political Parties  3 credits
A study of the American party system; the men who made the parties; development of
the two party system; a survey of third parties.

P SC 304  State and Local Government  3 credits
A study of the governmental structure of the states and local government; the similar-
ities and differences in the executive, legislative, and judicial branches on both levels.

P SC 305  Politics and Administration in Latin America  3 credits
A study of the forms of organization, function, and operation of governments in the
Latin American countries; church and state; political stability; labor; economic con-
ditions.

P SC 306  Metropolitan Government and Politics  3 credits
The urban-suburban "crisis" confronting governmental structures in areas of planning,
financing, transportation, housing, education, and other public services.

P SC 307  Government and Politics of the Soviet Union and Communist China  3 credits
The two major communist countries' leadership patterns, policy making processes, gov-
ernmental structures, and public administration.

P SC 400  Political Science Seminar  3 credits
A course for seniors majoring in political science. The student will be guided in the
selection of a senior thesis topic. Regular classroom lectures will be offered on the scope
and methodology of contemporary political science.
PSC 402 American Constitutional Law 3 credits
United States Supreme Court cases related to contemporary constitutional issues: civil rights, criminal procedures, internal security, etc.; the Court's personalities, politics, and procedures.

PSC 404 Government and Business, 1865-Present 3 credits
A study of the relation of government to business as a control and as an aid; the commerce clause as the source of extended power of government control; decisions of the courts; state police powers.

PSC 405 Introduction to Law and the American Judicial Process 3 credits
The nature of law and its role in society; the "politics" of the administration of justice: selections of judges, criminal and civil procedure, judicial and jury decision making, courtroom operations, etc.

PSC 406 International Relations 3 credits
A study of international politics, organizations, and law; the significance of international law from Hugo Grotius to the present; the work of the League of Nations compared to the successes and failures of the United Nations.

PSYCHOLOGY

PSY 201 General Psychology 3 credits
General introduction to psychology as a science; the data, methodology, and purposes of psychology.

PSY 220 Experimental Analysis and Design 3 credits
Three lecture hours per week.
A consideration of the use of experimental method in psychological research; scientific research as a decision making process.

PSY 300 Psychology Statistics 3 credits
Prerequisites: Psychology 201, 220
The use of statistics in Psychology; descriptive and inferential techniques, prediction, and tests of significance.

PSY 305 Basic Experimental Psychology 4 credits
Prerequisites: Psychology 201 and 220
Two lectures and three lab hours per week.
A general experimental approach to the study of human behavior; sensation, learning, motivation, emotion; individual and group research, experimentation, and report writing.

PSY 309 Tests and Measurements 3 credits
Prerequisite: Psychology 201
The theoretical framework, underlying principles, and techniques of psychological tests; tests of aptitude, achievement, interest, and personality.

PSY 310 Psychology of Learning 3 credits
Prerequisite: Psychology 201
Major theories of learning and significant research findings in the areas of learning, motivation, and behavioral modification.
PSY 329  Psychology of Women  3 credits
A general survey of the role of women in western society and its effects on current modes of psychological adjustment in the face of our changing social structure.

PSY 403  Developmental Psychology I (Child Psychology)  3 credits
Human development from conception to early adolescence; psychophysical development and theories of personality development.

PSY 404  Developmental Psychology II (Adolescent Psychology)  3 credits
Human development from puberty to early adulthood; psychophysiological development and psychosocial problems of adolescence.

PSY 406  Personality Theories  3 credits
Prerequisite: Psychology 201
Theories of personality; structure and measurement of personality variables.

PSY 408  Physiological Psychology  3 credits
Prerequisite: Psychology 201
The interrelationship of the physiological structure and behavior of the organism; consideration of the structure and function of the nervous system, the neurophysiological foundation of sensation, perception and emotion; comparative studies on neurophysiological structure and response.

PSY 409  Abnormal Psychology  3 credits
Deviant human behavior from a psychodynamic point of view; etiology, symptom pattern, underlying dynamics, and treatment of emotional illness.

PSY 410  Social Psychology  3 credits
Social dimensions in psychology; reciprocal contributions of the behavioral sciences to the understanding of human behavior.

PSY 411  Systematic Psychology  3 credits
Prerequisites: Psychology 201
The history of psychology with special emphasis on the contribution of contemporary psychological research and theories.

PSY 412  Psychology of Perception  3 credits
Prerequisite: Psychology 201
The nature of perceptual processes and their functional relationship to environmental, behavioral, and physiological factors.

PSY 413  Group Dynamics  3 credits
Individual behavior in the group process; current theoretical views and research findings: sensitivity training; techniques of working with groups; participation in training groups and skill groups; role playing.

PSY 415  Clinical Psychology  3 credits
Prerequisites: Psychology 201 & 409
A survey course dealing with the field of Clinical Psychology. The application of psychotherapeutic techniques will be stressed along with clinical testing in personality diagnosis and research methodology in clinical psychology.

PSY 421, 422  Field Experience in Psychology  6 credits
Prerequisites: Psychology 201; 409
Open to senior psychology majors only with permission of the Department Chairman.
Observation and supervised experience in selected clinical, social, educational or industrial settings; participation in institutional staff meetings and training sessions.

**PSY 426  Counselling The Drug User**  3 credits
Techniques for recognizing drug users; commonly used drugs and their effects; groups, organizations, services, and individuals providing referral care and therapy; counseling techniques for the layman. Outside sources will be used to supplement presentation.

**PSY 450  Experimental Psychology: Social**  4 credits
Prerequisite: Psychology 300; 305; 410
Two lectures and three lab hours per week.
The methods and special techniques employed in the experimental analysis of social behavior.

**PSY 451  Experimental Psychology: Learning and Motivation**  4 credits
Prerequisite: Psychology 300; 305; 310
Two lectures and three lab hours per week.
The methods and special techniques employed in the experimental analysis of learning and motivation.

**PSY 452  Experimental Psychology: Sensation and Perception**  4 credits
Prerequisite: Psychology 300; 305; 412
Two lectures and three lab hours per week.
The methods and special techniques employed in the experimental analysis of sensory and perceptual processes.

**PSY 453  Experimental Psychology: Physiological**  4 credits
Prerequisite: Psychology 300; 305; 408
Two lectures and three lab hours per week.
The methods and special techniques employed in the experimental analysis of the physiological basis of behavior.

**PSY 455, 456  Independent Research in Psychology**  1/credit varies
Prerequisite: Psychology 305
The individual investigation into some selected topic of research in Psychology under the direction of a faculty member of the department, with approval of Department Chairman only.

**PSY 461  Psychological Aspects of Poverty**  3 credits
The cultural and psychological framework around the notion of poverty: the psychology of poverty and its effects upon the urban complex; poverty as seen through the eyes of the ghetto community.

**RELIGIOUS STUDIES**

**Group 1:** REL 201; 301; 401; either 611 or 661; 631; 701 and 702.
Occasionally, REL 351 or 411 will be added here.

**Group 2:** REL 302; 321; 402; 412; 632; 651; 701 and 702.
Occasionally, REL 331 will be added here.

**Group 3:** REL 201; 341; 403; either 611 or 661; 601; 701 and 702.
Occasionally, REL 511 or 641 will be added here.

**Group 4:** REL 311; 413; 512; either 621 or 622; 701 and 702.
Occasionally, REL 501 will be added here.
Courses in Religious Studies will be offered in the four groups listed above. Both majors and non-majors may take either REL 701 or REL 702 and any student may take these courses more than once. Students intending to register for REL 702 should obtain written permission from the chairman before doing so.

REL 101  An Introduction to Religious Studies    3 credits
This course situates the study of religion within the general context of man’s search for identity and values. It provides a basic study of the religious dimensions of life and some of the vital issues they present in our times.

REL 201  The Origins of Biblical Traditions    3 credits
This course provides an intensive study of traditions within the Old and New Testaments. The relative influences of history, law, legend, myth and other literary forms will be especially emphasized.

REL 301  The Problem of God Through the Ages    3 credits
This course focuses on the major historical approaches to the problem of God. It will give particular attention to the perennial questions of whether God is and what God is.

REL 302  The Meaning of God for Contemporary Man    3 credits
This course examines contemporary approaches to the problem of God. It will give major attention to the alternative proposals of theologians in the present century.

REL 311  The Development of the Theology of Jesus    3 credits
This course studies the meaning of Jesus for the writers of the New Testament and the gradual development of that meaning at various stages in the early Church.

REL 321  The Church: Its Development and Its Future    3 credits
This course examines the development of the Church as a community of believers and the relevance of that community to the world of the twentieth century.

REL 331  The Religious Life in the Modern Age    3 credits
This course focuses on the particular roles and problems associated with religious orders and communities in the twentieth century. It will give very particular attention to various reforms that have been suggested.

REL 341  The Search for Immortality    3 credits
This course studies the quest of ages of human enterprise to overcome death and achieve immortality.

REL 351  The Theology of Marriage    3 credits
This course examines the Christian understanding of marriage and of its historical development. Special consideration will be given to such issues as the sacramentality of marriage, responsible parenthood, divorce and remarriage.

REL 401  The Historical Development of Theological Ethics    3 credits
This course treats the development of various approaches to morality at different stages in the growth of the Christian Church.

REL 402  Social Ethical Issues in an Urban Society    3 credits
This course deals with various contemporary approaches to a number of basic ethical questions. Particular consideration will be given to the theologian’s confrontation with the urban world.
REL 403  Human Engineering and Religious Man  3 credits
This course explores the theological and moral problems raised by recent advances in
such fields as medicine, genetics and behavioral psychology.

REL 411  The Theology of Peace  3 credits
This course examines the evolution of the concept of peace from the earliest days of
Christianity. It will confront such modern issues as conscientious objection and non-
violence.

REL 412  The Theology of Race Relations  3 credits
This course situates the demands of justice and love, as Scripture and Christian tradition
present them to us, in confrontation with actual unjust situations in existence in today's
world.

REL 413  Environmental Ethics  3 credits
This course considers the possibility of constructing a theology of survival in the face of
our present environmental crisis.

REL 501  The Celebration of Life  3 credits
This course introduces the student to traditional and experimental liturgical and reli-
gious experiences. The emphasis will be on class participation and encounter.

REL 511  Theology and Modern Literature  3 credits
This course studies the image of man and his searchings into the religious realm through
modern literature.

REL 512  Theology and Art  3 credits
This course treats painting, sculpture and architecture historically and thematically as
vehicles and manifestations of religious belief.

REL 601  A Survey of World Religions  3 credits
This course provides a general introduction to the basic tools used in the empirical study
of religions and gives a basic survey of the world's most important traditions.

REL 611  Magic and Witchcraft  3 credits
This course focuses on religious magic and witchcraft in both primitive and modern
society.

REL 621  Near Eastern Religions  3 credits
This course treats the classical religious expressions of the ancient Near East. Particular
reference will be given to the religions of Egypt, the Fertile Crescent and Persia.

REL 622  Oriental Religions  3 credits
This course considers the classical religious expressions of India, China and Japan.

REL 631  The Theology of the Reformation  3 credits
The course examines the theologies of the major figures of the Reformation, both Trini-
tarian and anti-Trinitarian.

REL 632  American Protestantism  3 credits
This course deals with the impact of the American Experience on the Puritan culture, the
effect of Pietism and the Revivals on American religions and the development of Liberal
Christianity.
COURSES OF INSTRUCTION

REL 641 Judaism 3 credits
This course provides a basic introduction to the concepts of Judaism as they are practiced and understood by contemporary members of the Jewish faith.

REL 651 Mysticism 3 credits
This course focuses on those special recipients of the religious experience called mystics. It will discuss both Eastern and Western mysticism.

REL 661 The Religion of the Occult 3 credits
This course studies the impact of the growing interest in the occult, the unusual and the extra-sensory on religion in the twentieth century.

REL 701 Seminar 3 credits
This course deals intensively with specific subjects that will be announced.

REL 702 Independent Study 3 credits
This course is a directed individual investigation of some topic of research in Religious Studies selected by the student. Students intending to register for REL 702 should obtain written permission from the chairman before doing so. Both majors and non-majors may register for this course.

SCIENCE

SCI 301-302 General Earth Science 6 credits
Two lectures and two hours of laboratory and demonstration each week. A study of the solar system; basic concepts of climate; study of the structure and composition of the earth.

SCI 400 A, B, C, D Science Seminar 1 credit
Discussion of methods and problems in the physical sciences, stressing the interrelations and integrations of the individual sciences. Special topics presented and discussed by faculty members and students.
Students may take one or all parts of this course with the permission of the Department Chairman. One part offered each semester.

SOCIAL STUDIES

SS 400 Social Studies Seminar 3 credits
A thesis seminar. Lectures will focus on a special subject determined each year by the Divisions. Students may determine the area in which they will write the thesis.

SS 401 Seminar on Planning for the Future 3 credits
An introduction to the study of future; the role of sciences in planning; methods of long range predictions. Course offered on Pass-Fail basis.
SOCIOLOGY

SOC 203  Principles of Sociology  3 credits
An analysis of the basic structure and dynamics of society; social interaction, social organization, social change, social processes; a summary of ideas of seminal sociologists.

SOC 301  Social Problems  3 credits
Prerequisite: Sociology 203
An inquiry into the nature of social problems, both causes and consequences, within complex, industrial society, and in the perspective of social change.

SOC 303A  Criminology  3 credits
Prerequisite: Sociology 203
The sociological approach to the study of crime causation and to patterns of criminal and delinquent behavior in contemporary society.

SOC 303B  The Sociology of Corrections  3 credits
Prerequisites: Sociology 203 and 303A
The study of the structure and functioning of the American system of corrections: law enforcement, courts, institutions, probation and parole. Field experience required.

SOC 304A  Sociology of the Community  3 credits
Prerequisite: Sociology 203
Analysis of the community’s functions and types, both traditional and contemporary; the impact of the urban, industrial, mass society on community, family, and individual.

SOC 304B  Urban Planning  3 credits
Prerequisite: Sociology 203
The development of the urban environment; the inter-relationship of social and spatial factors; the need for planning; the tools of the planner; some current concepts concerning the role of the planner.

SOC 305  Social Anthropology  3 credits
Prerequisite: Sociology 203
An inquiry into the concept of culture as applied to both simple and complex societies; the ethnology of pre-literate peoples with emphasis on social, economic, and political organization.

SOC 307  The Peoples of Latin America  3 credits
Prerequisite: Sociology 203
A comparative survey of the interacting cultures of Latin America and the impact of Western civilization upon them; an analysis of problems and institutional conflict generated by social change in under-developed nations.

SOC 308  Introduction to Social Work  3 credits
Prerequisite: Sociology 203
Historical background and the development of the principles of social service; analysis of the three major areas of social work: casework, group work, and community organization. Field experience required.

SOC 309  Sociology of Communication  3 credits
Prerequisite: Sociology 203
Primary and secondary communication systems. Language in socialization, social or-
ganization, and social control; theories of communication. Modern mass communication media: structure, content, and effects.

**SOC 311 Social Research Methods**  
Prerequisite: Sociology 203  
3 credits
Preparation of a research proposal. Formulation of the problem; survey of relevant literature; definition of concepts; preparation of research design and research tools.

**SOC 312 Sociology of Minority Groups**  
Prerequisite: Sociology 203  
3 credits
The analysis of interaction among racial, ethnic, and religious groups in the United States; the study of structure, dynamics, and problem aspects.

**SOC 313 Social Change**  
Prerequisite: Sociology 203  
3 credits
Theories of social change: evolution, revolution, conflict, culture lag. Planned and unplanned change. Community development in urban slums and under-developed areas.

**SOC 314 Demography**  
Prerequisite: Sociology 203  
3 credits
The field of population study; world population growth and distribution; mortality, fertility and differential fertility; migration. The Malthusian problem and population policy.

**SOC 315 Sociology of West Indian Peoples**  
Prerequisite: Sociology 203  
3 credits
The Caribbean as a socio-cultural area; race, ethnicity, and class; the community; domestic organization; religion and folklore.

**SOC 400 Sociology Seminar**  
3 credits
A coordinating seminar for the senior sociology majors only, for the purpose of integrating sociological knowledge, and for considering some of sociology's particular problems, e.g., sociology's scientific status, the place of values in the study of society, the relationship of sociology to other academic fields.

**SOC 401 Sociology of Politics**  
Prerequisite: Sociology 203  
3 credits
Contributions of sociology to theory and research in political behavior; analysis of the social bases of power and the political processes in organized groups.

**SOC 402 Sociology of the Family**  
Prerequisite: Sociology 203  
3 credits
The structure and functions of the family; comparison of families in primitive and industrial societies in order to demonstrate the nature of problems associated with institutional change and civilizational processes.

**SOC 403 Industrial Sociology**  
Prerequisite: Sociology 203  
3 credits
A study of human relationships in occupational groups; industrial organization; the political, economic, and ideological effects of technology, unionism, and bureaucracy.

**SOC 404 Theory and History of Sociology**  
Prerequisite: Sociology 203  
3 credits
A systematic survey of the growth of sociological theory; a study of influential individuals and representative schools from Auguste Comte to the present day.
SOC 405  Contemporary Sociological Theory  3 credits
Prerequisite: Sociology 203 and 404
An examination of major currents in sociological thought of the twentieth century; systematic explanation of the dimensions of sociology as conceived by seminal sociologists of Europe and the United States (Weber, Mannheim, Mills, Merton, and Parsons).

SOC 406  Sociological Statistics  3 credits
Prerequisite: Sociology 203
Statistical techniques most commonly used in the analysis of sociological data.

SOC 407  The Sociology of Religion  3 credits
Prerequisite: Sociology 203
The sociological study of religion in society; forms of religious organization; religion as social process; religion and social change.

SOC 408  Sociology of Complex Organizations  3 credits
Prerequisite: Sociology 203
Nature and types of formal organizations; the organization and its publics; processes of communication in formal organizations; organizational dynamics; the organization and society.

SOC 409  Medical Sociology  3 credits
Prerequisite: Sociology 203
Society and disease; societal coping with illness and injury; society and health care administration.

SOC 500  Independent Studies  3 credits
Individual research, study or field work under the direction of a faculty member with the approval of the Department Chairman only.

SPANISH  (See Foreign Language)

SPEECH

SPE 203  Public Speaking  3 credits
Introduction to phonetics and study of basic diction; speech screening; practice of extemporaneous speaking, organized according to purpose: speaking to persuade, to inform, to entertain; analysis of individual problems.

SPE 204  Speech Clinic  No credit
One-hour-a-week service course.
Intensive work on the correction of outstanding speech difficulties; individual and small-group instruction given on a pass-or-fail basis. Required only of those who fail in speech screening during Speech 203.

SPE 301  Oral Interpretation  3 credits
Prerequisite: Speech 203
Presentation and analysis of selections from various forms of prose and poetry.

SPE 302  Discussion and Debate  3 credits
Prerequisite: Speech 203
Practice in discussions, speeches, and debates; theory of argumentation; analyzing
problems and propositions; persuasive speaking; organization and development of cases; criticism and evaluation.

**SPE 303  Language and Communication**  3 credits
The various aspects of language and communications study: descriptive and historical linguistics, semantics, the role of language in human behavior, communication theory, and media ecology.

**SPE 403  Advanced Oral Expression**  3 credits
Prerequisite: Speech 203
Extended speeches and lectures relating to selected areas; practice in special forms such as reports, sales talks, sermons.

**SPE 404  Acting**  3 credits
An introduction to the basic techniques and theories of acting; exercises in the fundamentals of voice, pantomime, movement, and concentration. Conducted as a workshop.

**SPE 405  Play Production**  3 credits
An introduction to the problems of bringing a play to life on the stage; the roles of the playwright, director, producer, actor, and the various stagecrafters as they apply to both professional and amateur productions.

**SPE 408  Theatre in Performance**  3 credits
A course that investigates performance style and techniques in modern theatre. The class will meet alternately at St. Francis College and a specified New York Theatre or Studio. At least five professional productions are seen. The productions will represent a variety of performance style from the conventional to the avant garde. Expenses in addition to tuition are required to meet the cost of ticket purchases. All St. Francis meetings analyze the productions in light of modern trends. Depending upon availability, guest performers, writers and directors associated with the production are interviewed by the class. Grade evaluation is determined by a written examination at the term's end.
